## 1 - invasion

Master chief and 7 marines are coming into firing position on the unaware Elites. The marines begin running out using battle cries with Master chief following behind. Two Elites are taken out easily. The marines come to a door that opens automatically revealing a brute. To the Brute's surprise, Master chief had a M19 SSM Rocket launcher the Brute gets killed easily. However, Master chief doesn't realize there is something else in the room. Then something creeps up behind Master chief. An Elite with an Energy Sword is about to kill Master chief. A marine shoots the elite then Master chief rams the Elite in the head with a M90 Shotgun. As they move on a jackel with a Particle Beam Rifle takes out two marines. One marine acts fast with a S2 AM Sniper Rifle and takes the jackel out. Then they enter a courtyard full of Wraiths, ghousts, and Specters. The marines begin jacking Ghousts while Master Chief is blowing up Wraiths and Specters. Bullets and Grenades are flying everywhere. The battle is now coming to an end as they discover the courtyard leads outside. They hear gunfire although they are the only humans there. A marine pulls out a pair of binoculars and sees the Flood fighting the Elites. They then call in for some help from the Helljumpers. The Helljumpers regroup with Master chief. They also get a M808B Scorpion Tank. Then Master chief gets in the Scorpion leading the marines and Helljumpers to the war.
