- * First, if you're a flacid whimp, take four cases in one dose of Mark Macguire's brand steroids. Then repeat dose with your breakfast, lunch, supper and for the heck of it, take another extra dose before bedtime.
- * Now when you see your chest has finally appear, buy yourself some supportive bra to avoid your overdeveloped boobies to fall to the ground. But if you can't seem too grow any chest, there's always sillicone.
- * To avoid loosing you psyche, workout day and night without caring what your family says about taking the trash out or assisting to your daughter's birthday. YOU are more important.
- * Forget about learning to write and read; your body it's priority. If you really need to know what the cartel says, grab a whimp and demand him to read it for you.
- * Forget about having sex with your wife; if your brother is closer, GRAB him! And don't worry about the tears, i'm sure he's enjoying it.
- * If every fork breaks because your hands are too strong, use your hands. You'll be saving your spouse a lot of work.
- * Fart wherever you want; if you're big, nobody would dare to complain.
- * If you're in a diet, beat some people down; it would take your mind out of food.
- * If you need some money, take it from your brother; he'll never notice.
- * If you wanna have my approval, go and beat senseless whatever nerd you come across with and if one of them is your brother, beat him up too.

Now, get the f#ck out and rob a bank before i smack all of you, this classes aren't free, ya know.

~Class Ends~

How to be Aniki:

- * If you want have a hair with strong curls that not even the wind would mess up as mine, have your pesty sibling mix up some cheap ol' cement to your shampoo. Your hair will surely be 'stoned'shing.
- * If you want a skin as fair as mine, have your kid brother switch into your water pipe 500 gallons of clorox bleach. You'll be the whitest white of all whites.
- * If you got a younger sibling that won't shut up, kick him right in the of his jewels, that way you can enjoy the silence before he gets his voice back; three hour later. Remember, if you're as little as i am those things are close to your fist.
- * Let your brother do all the talking, so if he screws up you won't fall with him.
- * Let your sibling think that he's the smart one, then laugh yourself stoopid at every mistake that he'll make. And HE will; believe me.
- * If you got an annoying voice, use it as an alarm clock; that way your sibling won't go back to sleep and loose a job interview. Mine did; many times.
- * If your sibling has all the beauty, it's surely that he or she got no brains.
- * If you're small and good a gambling, convince a 20/80 share with your bigger sibling and use him or she as a bodyguard; they won't know they're getting the lower half.
- * If you're piss of your brother, join the klux klu klan and convince them that he's black. If your skin is lighter than his, they'll believe you; then see him run his a\$\$ to hell.
- * And remember, just because in some countries the word Ani means anus, doesn't means that you're somebody's asshole.

Now, you're all free to go while i'm gonna check my wallet; my kid brother thinks that i haven't notice the missing cash.

~Class Ends~

I think that i'm gonna keep this one with me.
