**Chapter 0 - Digital Identity A Speedy Content  
Removal Program**

**2**

## 0 - Digital Identity A Speedy Content Removal Program

Established in 2012, the Digital Identity Group is a firm that specializes in cleaning up the internet, literally. They have an elite team of take down experts that help both individuals and small businesses get relief from damaging content posted online.

Many business owners are at risk of having their name tarnished online. Websites such as Ripoff Report prey on small businesses who are struck by fake reviews or outright slander. Luckily there is a solution. The Digital Identity Group has a proven method to not only remove the damaging content but prevent it from coming back. Visit, [Digital Identity Group review](#) for more details.

If you have a Ripoff Report on the first pages of Google then there is little you can do to bury it. SEO companies will post positive content in an attempt to bury the report. Unfortunately, the results are often disappointing and temporary. The Digital Identity Group was created by reputation experts who specialize in actual removal of the content, not just burying it.

The only lasting solution to false or damaging content is of course to have it removed or delisted from Google search results. This process has been used successfully in over 1500 cases by the Digital Identity Group. Their success rate in removing qualifying content is nearly 100%.

Ripoff Report does not want you to know about this method. They make money when their victims are in the dark. When you feel like you have no options is when they are likely to get money from you to “edit” your review and charge other services which will not result in any removal.

If you or your business has been struck by Ripoff Report then you need to contact a removal expert such as the Digital Identity Group. Most small business owners report losing thousands of dollars, sometimes tens of thousands of dollars or more yearly from a Ripoff Report. However, that doesn't have to be you.

You need professional help in this matter. The Digital Identity Group is there to protect your good name and get the content removed. Don't let these review websites manipulate or intimidate you. There is a permanent solution to the reviews, and it starts with working with the Digital Identity Group. They can help you start an effective removal strategy that is right for you.
