I write stupid songs, but I'm putting them up anyway.

1 - I Close My Eyes

I Close My Eyes

*I-I close my eyes
And I whisper just
Just how much you mean to me
And I know who you are
And who you've been
And just how happy we'll be*

Chorus

*You-You hold my heart
In your hand
But I feel no fear
I can't sleep
Because I'm afraid you will disappear*

Chorus

*I-I feel your breath
Fill up my lungs
Scent spills off your skin
Entices me
I lean in close
And slowly lose my sanity*

Chorus

*Here-Here is my heart
Here is the key
It could never have belonged to me
'Cause the way it beats
When you are near
The rest of the world melts away*

Chorus Repeat

My heart is here to be undone

Chorus:

*I live for your laughter
I breathe for your smile
I wake 'cause I know you'll be there*

My arms are here for you to touch

My eyes are here to see you

My lips are here for you to kiss

My heart is here to be undone

My heart is here to be undone

2 - Missing You

Missing You

*How can I feel this way
After all you've done to me
Can't stand all the confusion
I can't love you,*

But I do

[Chorus]

*I want to block out thoughts of you so I don't lose my brain
'Cause every time I think of you
It brings back all the pain
I wish I'd never, never known your name*

[Chorus]

*Every time I look at you, it sickens me
Every time I think of you
I wish I didn't see what I do*

[Chorus]

*You said the words that echo in my ears
You push away the love
You push away my tears
All the while I want just one thing
So as you pack your bags I sing*

[Chorus]

{Repeat chorus with parentheses}

Can't we go back and make it better?

Chorus:

(Cause I'm) Missing you

(I'm) Missing me

(I'm) Missing who we used to be

Can we go back and make it better?

Better!

3 - Same Old Things

Same Old Things

These common walls
My footsteps fall
Into their regular place
These people lie and cheat, despise
Just to save some face
My weary soul
Has had enough of this everyday routine
It's time to break down walls
And crash these halls
I'm just so tired of the same old things

This one is not finished, but I thought I'd put it up anyway.

4 - Your Hand

Your Hand

As we walk across the sand
I release your hand
And finally see
You were never good for me
It all seemed so surreal
And how I feel
Was never really about you
I wait for my cue
To start to say
That I'm leaving you today

Again, not finished.

5 - Ghost of My Past

Ghosts of My Past

*You hold my hand
And I'm reminded
Where I come from
And you smile up at me
I see my whole world
Right in your eyes*

*Then I see
The ghosts of my past come flying by
You release my hand
I hear you sigh
My life falls away
The moment I see your face*

*Then on that day you're leaving me
The tears are swimming
I cannot see
That final look
Your final plea
Screamin' run
Come after me*

*Then I see
What's best for you
Could never be me
I let you go
And you are free to run away
And leave me*
