Pranks to pull on anime/manga characters whilst they sleep. This is how I solve boredom.

1 - PRANKS

Kyo Sohma: put purple streaks in his hair.

Sailor Moon: hack off one of her ponytails, but not the other.

InuYasha: paint his fingernails a really girlie pink.

Vash the Stampede: replace his gun w/ a marshmallow shooter.

Sailor Moon: kidnap her cat, then shave it's fur off, and paint her hair black, then put a pager in the wall next to her bed, and then page her all the time...she'd never find out where the sound's coming from!~submitted by: Sammiy303
