**Chapter 0 - the treuth** ..... 2

## 0 - the treuth

[font=Söhne,]Ugh, Hare from Monster Rancher? Seriously, what were the devs thinking with that character? His design is just, like, so weird. Those ears are way too big, and it's like he's trying too hard to be cute. It's kinda cringe, you know?[/font]

[font=Söhne,]And his personality, or lack of it, is just a whole new level of boring. Like, who wants a monster that's just meh? He's like the plainest vanilla ice cream in the Monster Rancher world. I don't get why they even bothered including him. I mean, come on, give us something interesting![/font]

[font=Söhne,]And his abilities? Don't even get me started. In a world full of cool and powerful monsters, Hare is just, like, a total letdown. His attacks are forgettable, and his skills are just meh. It's like the devs didn't even care about making him stand out.

Why pick Hare when you could have something way cooler?[/font]

[font=Söhne,]And let's not even talk about his role in the storyline. Hare is just there, taking up space and not doing anything important. It's a major letdown compared to other characters with actual stories. Hare feels like they just threw him in because they needed another monster, not because he adds anything interesting.

[/font]

[font=Söhne,]So yeah, Hare is, like, the worst Monster Rancher character. He's forgettable, not cool, and just doesn't bring anything exciting to the game. If you're looking for a monster with charm and awesomeness, Hare is definitely not the one.
