<b>Chapter 1 - The call</b>	<b>2</b>
<b>Chapter 2 - South Island</b>	<b>3</b>

## 1 - The call

In the calm surroundings of Angel Island after Knuckles and Sonic's team help saved the world from utter destruction. However Sonic is just chilling by the altar eating a chili dog which he missed during his time on earth while he sees Amy playing hide and seek with Cream and Cheese. Tails is in a warehouse just answering a call from someone on a familiar island. The call said that Eggman was back on the island and planning to destroy it in an act of revenge to Sonic for what happened on earth. Tails calls Sonic over and tells him about the phone call and Sonic says.

"What island?"

And Tails just delays before saying

"South Island"

Sonic is shocked about Eggman's plan to destroy South Island while he was gone so he said

"Tails start up the Tornado we are going back to South Island"

Before they leave Amy sees that Sonic is going so she tells him to look after himself as well as Tails

## 2 - South Island

Sonic and Tails land at South Island only to find that the trees in Green Hill have been toppled and badniks all over the place. Sonic says to Tails

"Tails this is so not cool."

Tails scouts the area and finds tracks leading to a house.

"Sonic let's go here."

"Ok," says Sonic.

In the house there is a family of rabbits who are upset because Robotnik has come and kidnapped two of them. Sonic is enraged by this and asks for which way Robotnik has gone and they point towards the bridge.

"Right Robotnik, you are going to pay for this." Sonic speeds off but he fights a few badniks first and then heads off towards the bridge. Tails follows after reassuring the family that Sonic will bring back their loved ones.
