Numerous uses, and forms. Mostly for song writing however, but not obviously not entirely.

Chapter 1 - Lyrical Possibilities

1 - Lyrical Possibilities

I'm glad my friends will all be dead
My family is already gone, it was all mislead
Take a deep breath, as life passes by,
There will be no more lies, they're not in the sky

--

We are wolves among sheep, forever feasting upon the weak
The black flame within has risen, and the dreams have come into fruition

--

The depth of what was thought to be deep, can't be measured in height or in feet

--

My vision gets cloudy from the leaking seems, the smoke in my eyes like red laser beams.
Come to realize this affects me,
Death comes quickly for a small fee
Our hearts get weaker eventually
There are no taxes, that I still can see
Endless intoxication won't let me be

--

If you say that anything is a hard burden, or that things will only get worst
You need to improve your mentality, only then will you finish first

Motivation isn't a key, but depression is a large door
