**Chapter 1 - A love of the past**

**2**

# 1 - A love of the past

A love of the past

We always shared the perfect kiss

We were filled with smiles and trust

When our eyes meet I reminisce

Of the days of hope and lust

Together we were to age

Till a shadow cast upon us

Our hearts were filled with rage

And the wicked shadow turned my form to dust

I see you now through pain filled eyes

You've found a new love so full of life

Oh, how I wish you'd leave her and answer my cries

I dread the horrid day you take her as a wife

When we are together

I know you feel regret

You try to mask our love

For you know she won't forget

You and her together causes me distress

You holding her I dread

For this once living priestess

Is now the living dead.
