1 - Chapter One

Naruto, could I..um..talk to you for a moment?" Sasuke asked the 16 year old blond boy as they walked home from a day of training and fighting.

"Sure, what do you want." Naruto asked as he looked at his best friend. They had become close over the last few years, like best friends, but closer.

Sakura had noticed how close they became but thought nothing of it. Kakashi noticed something though, and he wanted to find out, so he followed the two boys on their way home one night, as the grey clouds overhead threatened to rain.

"Well..." Sasuke tried to find the right words to say, "I wanted to know...um...How you feel about me." Sasuke looked away, embarrassed.

Naruto blushed and looked at his feet, then at Sasuke. "Like..if I...love you?" Sasuke nodded. "Well..you see...I kinda...really, really...lik..love...you." Now it was the blond boys turn to look away.

Kakashi sat in the trees and smiled, he know this would happen, he had hoped for it.

"You do?" Sasuke asked as he looked at the boy who he had fallen in love with. "Naruto, look at me." Naruto turned his head toward Sasuke, "Naruto...I love you too."

"Really?" Naruto took the black haied boy's hand, "You really love me?"

"Yes I do, Naruto." Sasuke leaned over and kissed Naruto, as the rain began to pour.

Kakashi watched as the two teenage boys kissed in the rain. 'Rain kisses are always the best.' Kakashi thought to himself, as he went home, to leave the two boys alone. Tomorrow would be an interesting day for everyone. Including himself.

Later that night Sasuke and Naruto walked to Naruto's house, hand in hand, and spent the night in the same bed.

"Goodnight Sasuke, I love you."

"I love you too, Naruto."
