Nara is a very sweet, shy and lovable kunoichi born to the Village of the Snow. Through experimentation by their current lord, Nara was fused with the spirit of a demon arctic wolf, given the name Hokkouyoku-Roku, or 6-tailed Arctic Devil, in english. Unfortunately, her parents were lost during a raid from the rain village. Nara was then kidnapped and taken under the care of Kabuto Yakushi, who returned her to the village a year later, now with Orochimaru's curse seal. Upon her return, she was banned from the village, and tied up like a dog in front of the village, as they did their best to kill her.

She was, luckily, discovered by Iruka and taken under his care. Slowly, the secret of her demon leaked out, although only a few select people knew about it until the demon came through and attacked the village along side the Kyuubi.

Nara is, overall, a very trustworthy girl, but she had a very different mind from the normal person, that takes normal concepts in a different view from normal people. She can't seem to comprehend simple things that most people understand. She may have Autism, but no one seems to know for sure. Something like that would also explain her stutter while she talks, which gets worse when she's under stress or in pain.
