## 0 - Clinical Trial Analytics Market : Insights and Trends

The global [clinical trial analytics market](#) size is expected to reach USD 17.06 Billion in 2032 and is expected to register steady revenue CAGR of 13.4% during the forecast period, according to the latest analysis by Emergen Research. Increasing cost of conducting clinical trials is a key factor driving revenue growth of the market. Clinical studies are expensive, and this has a negative effect on patient expenses. This is a result of biopharma companies' efforts to maintain profitability by including Research and Development (R&D) expenses from unsuccessful studies in the price of approved products.
