when Alice bracks her ankle she is taken to the moon dormitory by Aido and descovers the secret of the night class and about herself.

1 - biten and secrets

I was talking to some of my Friends at cross academy when I felt a pain in my neck where 13 years earlier a pureblood vampire had bitten me. The only thing I can remember about my past. It was almost night. I sighed.

I jumped out of the window and when to landed I felt my ankle snap.

"Damn! OW!" I yelled as I fell down.

"You ok?" Aido asked.

"Yhea I'm fine" I said as I got up but I fell down "Damn! I think I broke something." Aido picked me up and took me to the moon dormitory.

"Aido what the-" his cousin Kain tried to ask.

"She broke her ankle" was Aido's response.

"Hi Kain" I said grabbing Aidos shirt, barring my face in his shirt, breathing in his sent. Aido took me to his room and bandaged up my ankle. That was the last thing I remember. I woke up the next night with a slight pain in my neck. I felt dried blood and I heard whispers outside the room. I found my ankle banged up and remembered what had occurred yesterday night. I got up and fell down.

"OW." I said as Aido came in, again he picked me up and took me to my room.

"I know that you're a vampire" I whispered. He looked at me and sighed.

"Your right. So are you." He said. I looked at him and laughed.

"Yhea right!" I said looking at his face and stopped laughing.

"I tasted your blood, you're a like me." He said as he placed me on my bed.

"Impossible."
