*I thought up a bunch of lyrics from the different songs from X and X-2 and put them together as a poem.  
I really like how it turned out. ^^*

# 1 - Untitled

Suteki Da Ne

I want to go into your arms

With those thousand words

And worlds of real emotion

My body close in your keeping

Wouldn't it be wonderful?

All of those lonely years

Faded into mere days

What can I do with us?

If only I could speak those words

They could fly to you

A summoner...

A guardian...

Sin...

Zanarkand...

We'll never be apart

The fayth have died

But you still live

I can hear your words

"Just whistle, and I'll come running"

"I promise"

Just whistle

Our dreams that have faded

Never forget them

Please, save my tears

I'll hide the pain

Come back to me

I'm not afraid to say what's in my heart

Like turning back the pages

I'll always remember you

Carrying you back into my arms

Let's fade away... together...
