## 1 - Saved

I think of you when I cry  
Please don't die  
Don't leave, stay with me  
Everything will be ok you'll see  
Most of my life was bright  
You had shown me the light  
But now its gone  
I don't know what I've done  
The darkness has come back  
Everything is turning black  
You're the one I believe  
Just don't leave  
Am sitting here ,crying  
I think am dying  
For you my love  
I cannot see our dove  
With great distaste  
It's gone to a place  
I must say  
I've lost my way  
I don't know how  
But your gone now  
I must processed  
To another lead  
I mustn't stay  
For you today  
My death is delayed  
For I've been saved

## 2 - Fallen

When everything falls down  
Am not always gonna be around  
Keep me in your heart  
I was there from the start  
Hold the fond memories close  
You're the only one that knows  
How much you love  
The mysterious dove  
Escapes from it's closed cage  
Boiling with poisoned rage  
But it calms, and learns  
That Love can burn  
With those eyes of yours  
They look so unsure  
Your lips start to shake  
Your Heart starts to quake  
You wish to say what you feel  
So that you can start to Heal  
With feelings being closed for so long  
You don't want them to be gone  
Your scared to lose

### 3 - Shadow

Please tell me what's wrong  
It's been sooo long  
Since the last time you smiled  
Have you been to river de Nile?  
With all your decisions  
You cry to the Heavens  
asking, pleading, say  
Why does it have to be this way?  
The past has been so twisted  
So much so you don't miss it  
But it makes you what you are  
You have come this far  
The scars you bare  
You don't even care  
It's just that your Heart burns  
With everything you've learned  
Feelings that are ever lasting  
Your hair over casting  
Shadowing your gorgeous eyes  
With everything that lies  
I believe everthing you've said  
Have I been mislead?

## 4 - Forsaken

You take away my title  
as if it wasn't anything fatal  
But now in a lake of depression  
That title had shown me some affection  
It was all I had to stop myself  
From dragging up old dirt and filth  
You took what I had left  
You have taken another gift  
Without even realising what you have done  
You come along and steal another song  
You may seem to care  
But there's something you can't bare  
If there is something that can be taken  
you are going to be forsaken  
How on Earth can you be doing this to me  
It was all I had to be  
But now it's as if I'm not needed  
I guess you have succeeded  
In tearing me apart  
And turned it into an art  
My eyes cry blood because of the pain  
I need to put out the flame  
That burns within my heart

## 5 - You

### Your Hair, Your Smile

It's gonna be there for awhile  
But i'm gonna make sure it won't last  
Even if you had a hard past  
Everything that you say  
No matter what way  
Someone is gonna crash and burn  
And then they will learn  
Not to mess with a woman scorn

### You Love, You Tease

All i wanted to do was to please  
You make me so happy inside  
But in the end that'll be tossed aside  
What am I to you?  
Do i make everything seem blue?  
Even so you should know  
That i can't seem to say no  
To the love you had once given

### Your Eyes, Your Touch

I can never seem to get enough  
Can't you see that you're killing me  
But I guess it never was pose to be  
Or Am I doing the same to you  
Feelings sticking to you like glue  
It just makes me want to cry  
enough to make me curl up and die  
But thats something I can't do

### Your Heart, Your Light

Covered by that of night  
Feelings that can't be shown  
But I have always known  
Why? Why does it have to be so hard?  
Why does my heart bleed so bad?  
I wish this would have never happened  
The scars on my heart have deepened  
It be best if I went away

### My Love, My Wish

Know that this is such a dish

Say the feelings that you feel  
It may cause a big deal  
But be who you truly are  
You have come this far  
This is all i can hope for  
once am gone forever more  
My Love stays true

## 6 - Lie

Voices so controlling  
Voices so confusing  
Saying damn  
Why did you have to do that Joanne?  
You are so naive  
So easily deceived  
Do you know what you did to him?  
Tossed him like trash into a bin  
So easily curled up in a ball

Not caring about that wall  
That you must over come  
To meet your one  
Stuck in a loop  
Drowning in soup  
Speaking your mind  
Not for the very first time  
Not sugar coating anything  
Telling nearly everything  
But holding back just one secret

Without actually meaning it  
That one lie  
Can cause you to die  
Keeping it locked  
Not wanting to be caught  
Are you going to let it control your life?  
Or you just going to pick up the knife?

It has always been this way  
Changing like night and day  
Wondering if you should tell  
Someone of your tale  
Of the Life lie you told  
Are you going to be bold?

Will anyone listen?

## 7 - Leave

Leave me alone  
I cannot atone  
What I have done  
I'm just not the one

Don't look at me with those eyes  
All I can see are Lies  
I'm better off alone  
I've already sworn

Don't touch me with gentle hands  
I won't fulfill those demands  
Just leave me be  
I just want to be me

Don't hold me with loving embrace  
All I'll give you is distaste  
Just go away  
Don't come back another day

Don't kiss me with tender lips  
It shoots shivers down to my fingertips  
It must be so  
Please I beg you, GO!

## 8 - Stay

Stay with me  
I just want you to see  
How I truly feel  
Is it such a big deal?

Look into my eyes  
To see am not telling lies  
I'm better off with you  
You know this to be true

Touch my hands gently  
I know you been feeling the same lately  
Just stay with me  
It might be meant to be

Hold me with Loving embrace  
You can't wait to taste  
Just don't go away  
Stay with me for another day

Kiss my lips tenderly  
You have confused me utterly  
But now I know  
You must not go

## 9 - Dear Diary

Dear Diary

Where to start? Everything has been a pretty fine; nothing much has been worrying me... Well... That's kinda a lie I guess. I have been worrying over something. Something I normally don't worry about since there never really been a reason for me to worry about. Until now...

Out of everything that I've ever gone through this is the one that stumps me >< It's just the most annoying thing in the world at this moment. It's bugging me to hell and back again. I always keep asking myself if I deserve it. I'm I actually of some worth like people say I am? It's has always been the worst habit that I've had and I do know that it bugs people when I do ask... But I can't help it. What is it that makes me of worth to people? Am no one special. I scare almost every one. So am I a monster? If that is so why did they say I deserve everything?

I REALLY don't know what I should do. I'm not used to this kind of treatment. It confuses me to no end. I have more questions than answers. My head is fuzzy even now and I'm developing a major headache. Urgh why did this have to happen to me? Why did people suddenly start to take an interest in me? I deserve no more than I am worth, If I think I'm worth nothing then I don't deserve anything, But If I'm worth the world to someone then I'd deserve the world. Too many factors of the other person play against what I used to think. I don't like it. I was used to just being of no worth... being alone was something I was used to. Why did that have to change? A monster, a monster that's all I am. Not many people can change my mind about that. Even if you changed the name or change the look, there still is a monster. Why did I have to feel that feeling that's so special? Why... Why should a Monster, like me, be allowed to Love?

I know this isn't a poem but it's an outlet, and it's kinda like a diary entry but not an actual one. yeah I confuse you don't I? ^^U

## 10 - Dream

A never Ending dream  
Nothing is what it seems  
Always meaning something  
Or meaning nothing  
Sometimes you've been repeating  
Never seem to be fleeting  
What dreams have you been having?  
Are any of them worth saving?  
Can you hold onto them?  
Should you write them done in pen?  
But even so that soon should fade  
Can you cut them with a blade?

## 11 - Voice

I won't be able to

I won't be able to hear your voice  
I won't be able to hear you call  
I won't be able to hear your lies  
I won't be able to hear you say my name  
Your voice I will never hear it ever again

All I have is memories

Memories of your voice  
Memories of our calls  
Memories of the lies  
Memories of you saying my name  
Your voice will be just that of a memory

Feelings I have

Feeling of Joy when I hear your voice  
Feeling of Happiness When you call  
Feeling of Sadness when you lie  
Feeling of Love when you say my name  
Your voice of feelings will fade

I can't tell

I can't tell if your voice is sad  
I can't tell if you call  
I can't tell if your saying lies  
I can't tell if you're saying my name  
Your voice won't reach me

Your voice

Your voice will not be heard  
Your voice will be just a memory  
Your voice will fade from feeling  
Your voice will not reach me  
Your voice will fall on deaf ears

## 12 - You are my

No matter how many times I try  
I can't seem to get you out my Mind  
Killing me slowly day by day  
It just won't go away

Always so hard to forget  
The guilt and regret  
Because it was never there  
It was just not there...

Forbidden to do anything  
Always wanting but not getting  
Deceiving but enjoying  
The endless nights of speaking

You... are... my... Sin  
You... are... my... Desire  
You... are... my... Addiction  
You... are... My Love

## 13 - Life

Once lost  
twice forgotten  
how stupid of me to think  
how foolish of me to hope  
of what i had wished for

Sacrifices are made  
chances are to be taken  
if to fall down  
come back even stronger  
that is what is given

Life is just a challenge  
breaking down with each test  
losing those you love  
but be back if it was true  
please remain here

Your heart is fragile  
your mind is chaos  
your soul is who you are  
your body is what keeps it together  
i'm sorry if i break
