**Chapter 1 - breveament**

**2**

# 1 - brevement

\*BREVEAVMENT\*

leave her here to sleep  
forehead kiss goodnight  
leave her pain, her grief  
hide her, win her fight  
take away her pain  
take away her tears  
lose from what she gains  
hide away her fears  
heal her wounds you gave  
heal her broken mind  
hold her soul you saved  
pain that holds unwinds  
so leave her here to sleep  
the kiss you gave you left  
her mind will fall so deep  
you left her to her death  
her frozen skin, so white  
her lips as red as blood  
you let her die tonight  
the one you always loved  
her eyes will always stare  
they open wide to see  
seems she had not been there  
she left you here to be  
the only one who cared  
misguided thoughts  
manipulated mind  
the blade to the wrist  
two of a kind  
the night you died she did  
the night, the time you died  
the night you bled, she bled  
its my time to say goodnight
