"transfer Yumi transfer Aelita Transfer Ulrich scanner Yumi scanner Aelita scanner Ulrich virtualization!"Jeremie shouted"Go north"He materialized the vehicles.Yumi asked"Why are we going to sector 5"He replied"I found some codes with just some of Xana's memory I may be able to turn xana's creature's against him,this time it wont be like the marabounta."
They were at the edge of the region.Jeremie entered the code SCIPIO.They were at sector 5. The gang ran through the maze.The countdown started 3:00 mins.They ran looking for the lift.Unluckily one of each of xana's monsters were there they were determined to keep them away from Xana's memory.The scipozia picked up Aelita Ulrich shouted"super sprint!"He smashed the megatank and cut the scipozia xana made the monsters retreat.Ulrich asked"why are they going?"Jeremie thought then he explained"I think he got something useful"Aelita saw the lift.They jumped aboard and they jumped off soon.Aelita accessed xana's memory.
