Chapter 2 - Eevee	2
Chapter 3 - The First New Eeveelution: The Bug	3

2 - Eevee

Eevee is the evolution Pokemon and, so far, has 7 evolutions. The evolutions we know of so far are Espeon, Flareon, Glaceon, Jolteon, Leafeon, Umbreon, and Vaporeon. But, I'm talking about Eevee now, so let's talk about it now. It is a cute Pokemon and is lovable for all, except the terds. Eevee is a brown Pokemon with some cream markings on its neck and tail. It evolves into many types, but not yet all.

3 - The First New Eeveelution: The Bug

Look in my gallery soon(not too soon though, sorry) and find a picture titled *Eeveelution Bug-Type*. It will look mostly brown with antene on its head to sense its surroundings. If you look closely, you'll see a sly smile on its face. Its legs and tail are pointed to ALL be used as stingers.
