## The one

The soft wind blows, my mind explodes

My heart it shatters, the blood, it splatters

And all is left is the soft pitter patter of the rain...

The woe of the wyvern runs deep in the night...

I suppose I'm alone, nothing but the consuming dark

Then you enter, lifting my soul, and as if by a touch

My pain disappears, and as if my heart has mended

Like I've learned to love again...

Like I've learned to trust again...

The hand that touch me is mysterious

The hand wanders; the hand can touch and heal

The hand can take and steal.

Unhappy days have disappeared but painful memories remain,

You steal my heart even when we part

I miss u everyday

You're the wind of sacrify, and the whisper in my ear

You drive me on through the dark until the light appears,

To this day with no dismay I can safely say

**I love you...**
