Chapter 1 - the stolen bike

1 - the stolen bike

Alice rode an old rusty bike down the street. She'd be traveling for a year now, and had no clue where she was. She crossed the sea, hiding in a ship that transported fish, and had come all the way from England to.....wherever she was..... "Where Am I?" she thought out loud. She thought deeply for a few minutes...then.....

"THERE'S SOMETHING IN THE DISTANCE!!!!!" She squealed.

It was a building.(of sorts)

"Reminds me of when Wonderland was dictated by that queen," she said.

She hadn't regained all of her sanity yet, and she was still pretty disturbed.

She parked the bike, and got off of it.

There was a gate.

The gate's bars were placed far apart.

So far that thin little Alice could just fit through.

There was a button.

Alice pressed it.

A HUGE bridge came across a moat of lava.

Alice crossed, then ran into the gaping door of the building.

She was grabbed by some security guys, and that was all she could remember.
