## Crystal the Hedgehog

Crystal's parents died when she was younger, at that same time she received her chaos powers.( Read story to find out details) When Crystal gets mad her eyes light up pure green. She is able to fly, Shoot ice from the palms of her hands, and she can make any one freeze and forget what they said before( That goes to her advantage and she can make them talk about something totally different..

## Super Crystal

When Crystal turns super her outfit changes and you can see that she has powers. Crystals powers come from the super chaos emerald and the master emerald.

Crystal likes to flaunt " What she's made of." She will never turn away from a fight even if she's near death. Crystal's a loving person and makes friends very easily.
