## 1. ~\*~\*~Someone~\*~\*~

Someone going through pain  
I wish that I could feel  
Because I could have helped him  
When things had got to real

But no he had resisted my help  
And a broke my heart in two  
Because I now might loose a friend  
And I didn't help him through

I tried my best not to cry  
But in the end I cannot lie  
I was scared I might loose friend  
And then that would be the end

I swear to god I'd slit my throat  
If I knew I lost him  
I know I promised I would not cry  
But in the end I lost it

I know he might not even go through with it  
But it drove me to insane  
Now I know how it feels  
To go through this much pain

:( \*cries\*
