*This was a dream I had that I wrote down, midnight urges after you wake up. you know, one of those things...*

# 1. The Girl in White

She Stands there alone  
The girl in White  
Just waiting there  
Outside in the Night  
Watching the stars  
And greeting the rest  
As she stands there  
Under the Families Crest  
She was told to wait  
There by the gate  
For her Date to come  
To the Family estate  
The Night before  
He promised her forever  
And told her that life  
Would soon get better  
She sat there in thought  
Just watching the sky  
And awaiting her love  
As the hours drifted by  
Soon The Others left  
And the Gates were sealed  
Yet she was still standing  
The Truth now Revealed  
The Clouds rolled in  
And with a heavy sigh  
The girl walked away  
And started to cry  
The thunder clapped  
And the roses she gripped  
Were tossed into the street  
As her heart ripped  
The Rain fell harder  
As she walked into the dark  
Never to be seen  
And with the lightning's last spark  
She vanished forever  
Left without a trace  
Never a smile  
To be seen on her face
