Funny but stupid

1. no food?

Senko walked up to the fridge and,DUN DUN DUUUN,
"NO FOOD" shrieked Senko. She walked around her house for 10 minutes.
"Still no food, I wonder where it went?" thought Senko.
So she went in search of it.
After about an hour a piece of cheese ran up and said,"follow me".
Then we went through a large forest,for about an hour She
was complaining. Finally the cheese got as big as the empire state building and
shouted,"Would you just shut the heck up!"
Senko turned chibi and answered meekly"okay"....
"I'm sorry Mr.Cheese"
"That's alright" said the cheese.When they reached the middle of the forest
All of the food jumped out of thier hiding places.
After an hour all of them were gone.
Where do you suppose they went?

Please comment I know it sucks but hey this is my first fanfic!
