## 1. Lesson

I am here to teach  
And I am here to tell  
About an important thing  
So I hope you'll listen well.

Never get into a car  
When the driver's had too many a drink  
Who knows what will happen  
When he can't clearly think

If you have to go somewhere,  
Find another way  
"Cause if you crash it's over  
You may not live to see another day.

I am sure of this because  
I no longer draw a breath.  
I'm sitting in the place I went  
After my painful death.

So I hope you listened well  
And that you're crystal clear  
And I hope that you will live  
More than my thirteen years.
