## 1. the battle in u

## 2. dreams

### 3. curse of pain

Curse of pain

You shall feel pain  
I will drive you insane

I am saying this rhyme  
To destroy your mind

I curse you on this day  
In such a painful way

The earth sun moon stars  
Feel everything feel the pain of internal scars

Your heart clenches you feel hot  
You feel like you just want it to stop

But it will not because you are cursed  
So I say be prepared for the worst

This is final warning  
For this is your scorning

On this day slash night  
I curse you I win this fight

## 4. just want 2 be alone

Just want to be alone

When you just want to go home  
And you just want to be alone

So when I'm alone I don't expect  
That you fucking test

People think that I'm sad  
They assume that I'm mad

Trust me on this one I'm not  
So don't get yourself all tied in a knot

I just need some peace  
Some time to smooth out every crease

I just need some time to think  
Just relax and have a drink

## 5. o feel like i could die

I feel like I could die

I'm in so much pain  
Lying here I'm going insane

I feel like I'm going to die  
But still I don't seem to cry

As I lay the pain seems to go away  
But I know it's only for the day

I lift my self up and wince  
Every time I move I flinch

Oh well I'm used to it by now  
But I don't seem how

I come to my fucking school  
God I'm such a fool

I walk in and sit down  
I look up and frown

There walking in is my enemy  
He walks in and sits beside me

Uh I'm so tired  
But then why do i feel wired

My life sucks so much  
Know one nose how much it sucks

With working three jobs and going to school  
But people just see me as a stupid fool

Going to my house and getting beat  
By my fucking fathers hands and feet

But I still hold on  
I'm still around  
And live my life with out a sound

But I still have my friends  
God if I didn't have them it would all end

I'd probably go fucking insane  
Because of all of my fucking pain

Soon schools over and I collect my stuff  
I walk out I got to go home frack

I walk along but I bump into someone  
I fall back I yell it hurts what fun

I cringe at the pain  
But say sorry anyway

I look up  
frack

It's my enemy shoot  
I'm in so much pain but I wait for the hit

It doesn't come but instead  
He looks at me like hes looking at my heed

He looks at me  
As if to see

I flinch at the contact he pulls back  
I'm scared but I relax

I slowly get up  
God my life sucks

I go to walk away  
But he grabs my arm and tells me to stay

I'm confused and I wonder why  
I blush when did I became so shy

He ask me why I yelled in pain  
I'm scared I can't tell him not now anyway

I tell him it's nothing just to leave it alone  
I walk I intend to go home

He walks in front of me and blokes my path  
I'm scared I can sense his wrath

He demands to no  
I can't tell him I have to go

Please I have to go  
Just please leave me alone

He tells me no  
He wants to know

I see  
I ask can we go outside

I tell him why I am in so much pain  
I wait I'm scared what will he say

Then all I feel is arms around me  
I look up and he kisses me

I kiss back I feel free  
I wonder what does this mean

He tells me he has always loved me  
I say the same I know this was meant to be

He tells me I'm not alone  
With him I feel like I'm truly home

He helps me change my dad  
Now I'm no longer sad

I'm happy because I'm not alone  
I have found my true home

I have found my true love  
I say this and give him a hug

He holds me back and this now feels so right  
Because now I have won the fight

## 6. i can never be broken

I can never be broken

Call me what ever you want  
Beat me for how long you want  
Hit me as hard as you like  
Because you can never really hurt me  
Sure you can hit my body but it will heal  
Because you'll never brake me never ever  
You'll never really hurt me  
My spirits to strong  
Because I'll always believe  
So you will never break me  
I'll never show you my pain  
Because you're insane  
I am strong because you're never going to brake me  
My spirit is to big my spirits to strong  
You'll never break me  
Because you can't brake my spirit

## 7. feeling

Feeling

I'm not sure why I feel so much  
But now as such

I think of all the things in my life  
Of all the things that go wrong on site

Of all the pain I went thru  
If only people new

Of all the pain I feel inside  
It makes me feel like I could die

Every time my parents fought  
Every time they thought

That I was asleep  
But I here everything as I weep

Of all the times I've moved from place to place  
I feel like an empty case

Today thou I do not cry  
Or will not die

For sometimes when I cry I don't know I do  
I wonder to

Am I really that cold?  
I'm not very bold

I wonder sometimes will it ever stop  
Because I feel like I fell down like a mop

But my friends will always be there  
They help life seem fare

I can always talk to my friends  
I know they'll be there till the end

## 9. everyday

every day u think the troubles r over  
people say that there 'fine' when u no there not  
and u worry bout them over and over  
but they don't see ur pain only there own anoyance

and i find that even no they no that ur right  
they hide and they run away from the fight  
they hide there feers and one day they will explode  
and i will always be there 2 back them up

but here i cry now and wait 4 the end  
for every living thing i hate  
cause i no they won't tell me unless i am there  
and that realy hurts me ummm

and i wonder if they really no how much  
.....they hurt me

how much i really do care  
how much i no and can understand  
cause i seemed 2be looked at and turned around  
and this all hurts me

i wonder if they really no how much

..i hurt inside  
how much they ....hurt me

## 10. life...is..life

as life is...it always changes

sometimes u walk threu life and u smile  
sometimes u stop in the rain and cry  
others you shake and howel in anger  
all emotions scale around life

life can be great flying u by  
but it can also drop u and wash u away  
life can be given or taken  
maybe even both on seprete times but together

i have felt issued and saw great pain  
mylife has been ruff but i always got threu it  
life has taken from me people i love  
and still is...cause my love once are still dieing

it has shown me great pain watching someone  
u no die inside or change or get hurt  
it kills inside and...always will  
so much that phisical pain means nothing 2 me anymore

but i have also issued pain ...to the once who love me  
i tend 2 hurt my self in different ways and..never do i  
scream in pain..if i am in teers i whipe them away 2 help others  
but thaat is y i hurt then not worrying bout my own pain

and in forth they worry for me..and i hate 2 see them sad  
thou in my heart i only see them..and him  
and i could care less what ever happened to me  
as long as my friends and faimly are safe and free

i guess thats all i can do...and no i will never change  
i am no angel...and i am not the perfect girl  
i do my best..and give what i can  
and i love with all i have...no matter the pain..

no matter whats up or down  
thats is all i can say ...all i can do..just remeber  
everyone..in my mind...i am here for u  
my friends...my faimly..my love..and my animals  
remeber i shale always love you

## 12. its not over never over

it's not over never over

bruises and cuts trail her bloody body  
unhumanly actions hurt this little one  
why feel so ashamed when this was not her fault  
hero's came and helped her escape

lying in bed wiping her tears away  
but even through all the pain  
she smiled at her angels in the sweetest way  
cause its not over never over she said

i've been through worse  
i'll smile for\_\_ever my dear friend  
even no i hurt inside never will I allow it to  
take me down\_\_ to the other side\_\_

i've been throu worse so i'll  
stand strong for you my angels  
i'll forget about my pain for you  
its not over never over i said

i may hurt but i'll always heal  
cause my angels..  
bruises fade away scars fold over  
my eyes will shine again  
because its not over never is it over
