0. Kingdom Hearts III-Meet the characters

This is just a rundown on the new characters and new Keyblades.

Heroes-

Adam- The main hero, he is a Keyblade user. He seeks to stop Xyanex from taking over the Twilight Realm. His Keyblade is the Omega Keyblade.

Serenity- The main love interest, like Kairi, she steals Xyanex's Scythe Keyblade, and her powers invert it making it good. She uses Xyanex's Scythe Keyblade in an inverted form in the final chapters.

Zeik- The antihero, like Riku, tries to stop Xyanex only after joining him to save his life. He uses the Chomper Keyblade.

Villians-

Organization X- The main villains, the X is the letter X, not the number it stands for. These are its members.

Xyanex (Zy-la-nex)- Xyanex's nobody, he founded Organization X. He is super strong, and should be taken seriously. He uses the Scythe Keyblade, until Serenity steals it which inverts it, he then uses his body as a weapon.

Zeik- See Zeik above. ^^

Bolton- He is the one accused of killing all of the members except him, Xyanex, and Zeik. He tries to persuade Adam to join them on numerous occasions, until he fights Adam only to be killed by him.

Other-

Xylon (Zy-lawn)- He was a famous scientist, until he researched the Heartless only to be turned into one. He of course also got a nobody, who is the main villain of Kingdom Hearts III. Even though he is not seen at all, because his heartless and nobody are the Main Villains in Kingdom Hearts III and IV, he is like the series main villain.

Xylowheart (Zy-lawn-heart)- The main villain of Kingdom Hearts IV (not featured yet) he is not in 3. Does not use a keyblade. Notice something about his name.

Keyblades-

Omega- Adam's Keyblade.

Scythe- Xyanex's Keyblade.

Scythe (Inverted)- Serenities Keyblade.

Chomper- Zeiks Keyblade.

Sorry it is so short. Please enjoy the chapters that I make.
