*A sorta poem for a friend Sakelee please read it*

# 1. Enjoy life

Enjoy life before it s gone  
Before the one s you love are gone  
Before the end of the world  
Before you have a chance to say how you fell  
Before you forget who you are  
And if you forget  
I m always there to help you remember  
What happens in your life  
Just one thing before this ends  
Be my friend forever let s grow up  
And discover things together  
Just don t forget about me  
Your friend that s with you no matter what  
Enjoy friendship before that s gone too  
And remember you got me through and through  
Till the very end.

~Sariah Keilbart
