## 1. The one last dance

The one last dance

The one last dance of freedom  
My arms have never hugged your love  
Like your heart embraced your faith in me

There were no words,  
There was no voice raising our thoughts  
Guardening this one, trembled feeling

Your feet danced on your frozen tears  
Where every breath strangled my thoughts  
Where the moonlight coldly enlightened  
Your decayed rose

Don't stop, my boy  
Don't leave the storm we conscripted  
And cursed in one last kiss  
I will end my steps  
The last spin ends in your hands  
Where my endless turn  
Rids me from myself  
Where my endless turn  
Captures me in desire

I left your betrayed arms,  
No tears deny your hope  
I promise  
Free your eyes of pain, my dear  
One last glance  
Let it go, my love  
One last silence breaking whisper

"I love you"
