A quick poem I wrote.

1. The One and Only

Knowing the state of the nation,
Is my occupation,
Staring at my LCD screen,
Such a life is mean,

It's almost cruel,
Stuburn as a mule,
I am about life,
I cause strife,

On this subject,
I deserve respect,
All knowing,
Still stowing,

All my knowledge,
Not from college,
Be optimistic,
Not monotheistic,

It'll always be okay,
Why don't you just stay?
Always fight fair,
But don't stand and stare,

Hearing the quiet clicking keys,
Dotting "i"s and crossing "t"s,
Checking for error,
Staring at the mirror,

Waiting for death,
Nothing to do with meth,
Is very unjust,
Doing without is a must,

Staring into the bowels of hell,
I'm not feeling very well,
I think I'll walk away now,
If it'll allow,

Either way,
Not gonna' stay,
I stay on Earth,
Since my birth,

Life's a bore,
Wonder what's in store,
Will I live forever?
I would never,

Have I gone mad?
Have I been had?
This thought in mind,
I stand behind,

Behind my hope,
So I can cope,
With problems
Like goblins,

These are,
Way over par,
Play the game,
And get your fame,

Change this place,
And pick up the pace,
It's all right on cue,
Changing the world is up to you...
