Health Notes: Due to a tremendous amount of Torture and the vast number of experiments performed on his left leg that dissolved the bone matter, muscles, blood, veins and fat, Tanner was left without a leg and retro-fitted with a bionic leg by Karbunkle who put a mind control device in Tanner's brain.

Temper: Tanner is quick to anger, especially when it comes to his baby bro Rusty who has ADHD and is slow to catch on to things people his age quickly catch on to. A tad abusive also when it comes to Rusty

Personality According to his wife: Sweet as can be

Likes Classic Novels, Ballet, Classical Music, Carving, Whittling, bonding with his new daughter and making up for lost time with his eldest son and daughter who are 8.

Dislikes His quickness to anger, his bionic leg--of course he grew to accept it, missing out on 8 years of his eldest children's lives, worrying if his wife was dead. Skydive was 8 1/2 months pregnant at the time of their imprisonment and separation.

Is known to say I've gotta really work on slowing down my rush to judgement I admit, I have difficulty controlling my anger, it's almost like a part of me that controls anger has been switched off while sleezoid 'operated on my brain'

Family History Shadow and Blizzard's father grew up with Colt's father and Shadow and Blizzard's mother grew up with Colt's mother. Blizzard and Shadow's grand parents grew up with Sandstorm's parents. Sandstorm's parents grew up with the Bridgenstein's.

BG Info Tanner is from one of the Richest families other than the Bridgenstein's and Orionsston's.
