1. My Sheezy Art Identity

Welp, i just wanted to tell everyone who watches me that i've made an account on Sheezy Art.com, the screenname is Damien The Hedgehog. I am currently posting a remade version of Mystery of the Fire Fox, a COMPLETELY redone version with fixed spelling errors, a deeper plot, and fixed plot holes, so i would reccomned reading this version if you really want to get into the story. Also check out my sprite comic in the making, Sonic Mushroom Kingdom, the plot is kinda generic with Sonic Teaming up with Mario but it also has it's own creative little twists and jokes. Also as a head's up, the first couple of pages SUCK!! This is because i had just started using photoshop and i was TERRIBLE! But the newer pages look alot better, so if you want to see the better pages you need to suffer through blurry sprite, chipped backgrounds, and cheap special effects until at least page 8. Well that's all, see yall there!
