Ruins of a civilisation - Dystopia

Now I'm living in a destructive world  
Cities are populated by hazard  
The streets are jagged, the sky is bloody  
Once here was a town, now it's just desert

This is Dystopia!

I'm standing on the ruins of a civilisation  
This destruction is what we earned

Now here are the ruins of a proud world  
The ruins of a civilisation  
The fire takes its dominion  
Now just violence is the population

This is Dystopia!

I'm standing on the ruins of a civilisation  
This destruction is what we earned

This is Dystopia!

This is Dystopia!
