This is the story if Kitten and Dib if you recall from the story Zera the New Irken of Earth Kitten is Purple and Reds sister.

1. Kitten

Kitten started off as usual she got up got ready and went to her school up on Irk. It was just like any other day boring. One thing about the school was vortions went there too. Kitten's two best freind were Slush and Shiba.

Kitten: Nothing intresting ever happens around this place.

Shiba: I know its really boring as usual.

Slush: Well atleast it cant get any worse right?

Then something rammed into the school fence. It was Purple in wolf form he was fighting with Red because Red thought it would be fun to push him out the window he was sleeping on. Purple got up and flew back to where he had been throw from hes was flying around Red shot a fire blast at him but missed and hit near the school.

Kitten: Thats what I get for having the Tallest as brothers she got up and left Shiba and Slush followed her.

Kitten: Mabye we spoke to soon.

Shiba: Where are you headed?

Kitten: Im heading towards the main building to stop this. Before she got to her destination Purple decided he had enough and stopped but Red saw an oppurtunity for a straight shot since Purple was standing still. He got ready to fire but right before he did Kitten appeared in his path.

Kitten: Red cut it out.

Red: Why?

Kitten: Cause its stupid and you started the problem by pushing Purple out he window. Red turned away in fury and Purple came through a hole he made in the side of the building.

Purple: He will never learn when to leave me alone.

Kitten: Probably not. It was a pretty normal life for Kitten but soon that would all change.

2. A Crash Landing

That night Kitten had decided to take a ride in her voot cruiser along with Candy her sir unit.

Candy:Hey Kitten where are we going?

Kitten:Really we arnt headed anywhere were just taking a ride

Kitten had flown pretty far from Irk but a different planet was insight it was Earth.

Computer:System malfunction.

Kitten:Huh?!Oh great

Candy:Were gonna DIE!!!!!!!!!!!!

Kitten lost control of the ship and it fell towards earth but she managed to open up the cockpit before they crashed

Kitten:(Grabs Candys arm and jumps)

The voot crashes into earth and we see Kitten falling down from the night sky and Dibs outside to but hes hiding because he decided he wanted to spy on Zim but not to reaveal him as an alien he just likes to fool around when noones looking.

Kitten:Well this is a great situation were stuck in.

Candy:This makes me wish I could fly like other sir units.

Kitten and Candy finally hit the ground but not where they can easily be seen.

Dib:(Pops out of a bush with a twig in his hair)Huh?What was that?(looks around and jumps out of the bush and looks around to see if he can find out what made that noise)

Kitten:(Moans in pain)

Dib:(Turns quickly)Hello?Whos there?(Looks in a different bush and jumps back)Your Irken!

Kitten:Yes Im Irken.

Dib:Are you okay where did you come from?

Kitten:I came from the sky my voot malfunctioned and I had to jump out of it.

Dib:I will help you atleast you didnt hit the pavement.

Kitten:Thanks.

3. One Irken Short

Back On Irk noone had learned that Kitten was no longer on the planet but had a clue she was missing.

Slush: Maybe we should report her disappearance to her brothers maybe they can help.

Shiba: Good idea

They both ran to the main building but stopped dead in there tracks

Slush: I guess we dont have to tell them

Red and Purple were outside morphed into winged wolves looking for any trace of Kitten

Purple: She has to be around here somewhere

Red: Yeah but where she might have left the planet

Purple: (Picks up a scent and follows the trail and comes upon seeing earth and her scent stops asoon as he sees earth) She went that way and mustve landed on earth.

Red: Well we need to make sure shes okay Im sure she didnt mean to land on earth cause her voot isnt here she might have crashed.

Purple: (Jumps up and flies towards earth with Shlush on his back)

Red: (Does the same but with Shiba on his back)

Slush: Do you know anyone who lives on this planet

Red: Yes we do

Shiba: Who else lives down there

Purple: Well youve never heard of Gir or Poptart or Dib but Zim lives ther

Shiba and Slush look at eachother

Slush: Im hearing you correct right you said Zim?
