flaws: when angry will possibly attempt to kill someone, due to her unusual features her senses are sharp but also case her to be overwhelmed by strong smells and bright lights, she acts cold and&nbsp;anti-social at times but really she deep down wants to be close to someone

Background: Selina never knew her real parents, she was abandoned as a baby on a doorstep in Iwa. All she knew about them was that her mother was a human and her father was a cat demon. She was very close to her adoptive brother, Deidara. Due to marrital problems she and her adoptive mother moved to Konoha where her problems just began to start.

She attained a few friends but also many foes. When her mother dies of supposed suicide Selina got a foster mother, Sakiko to whom she became very fond of.

When she hit puberty her demonic powers awakened.&nbsp;During her team's first mission out of the village she transformed in to a more demonic form because of the full moon but did not take full demon form (her tail split off in to 2, her fangs and claws grew longer and her eyes turned red), in this time she cannot recognise friend from enemy so she will attack anything she sees (even killing and eating them). She killed the male member of the team and so her team had to be split up once they returned to Konoha. her new team mates are Jami and tai of team Midori.

She is very close to Sasuke, she trains and spars with him every chance she gets, he even takes her to the abandoned Uchiha part of the village where it is more quiet. She is in love with him but is stubborn to admit it to him.
