This is a poem inspired by XdarktinkerbellX, its about Shadow X and Spore, our OC's, going against all odds for one thing.....

1. First glance

Im only machine....ruthless and sadistic
never raised, loved, or nurished
blood stains in my clothes
on the smile I wear
when I pull the trigger.....
she looks at me strangely
not like everyone else....
there is no fear in her eyes
why not?
whats this, she touches me.....she mends the wounds...
I admire her courage
but what is her drive?
Im feeling something.....my shoulders untense..
what is this feeling?
I want to touch her back...should I?
Her lips....they are warm....
she surrenders to me....
I cannot feel flesh....but something makes me
feel her energy....
could this be....love?....
who is this female?
what is happening?

2. Laying here

Her body so warm....
she looks at me with eyes ive never seen before...
how did this machine
this monster
this....killer...
change so dramatically?
Look now, she clutches you
cuddling to your chest
sleeping in ever bliss
stroke her hair delicately
but remember...
you are no hero
with the lives you've taken
and the things you've done....
people fear you
you thrive on it....
yet...
she clings to you...
that which you can not see
is what brings you together....
