*well i was not sure what i was thinking when i posted this oh well you tell me what it means?
before you fall.*

1. falling 1

I can't help but to fall
It's all I could ever do
Life with out you is to painful
To think what should I do?
Make it stop,
The pain is terrible
I'm falling but no one is here to catch me.
Don't let me hit the ground
Catch me so I can finally stop falling.
So I can be with you one last time.
Before you fall too.
