# 1. Genesis

Age: 17.5 (317.5 exactly)

Hair Color: Light Brown

Eye color: Gray

Bio: Genesis is the son of Xenos Omega, a genetic experiment of Dr.Nivorshka, head scientist of a galactic federation of warriors called the Nhi SHung. The Nhi Shung were led by a Prince named Neuva, who himself was an avid scientist. Unable to successfully grow his own experiment, he implanted it into Nivorshka's, where it would mature and take genetic properties of its host. The result was Genesis, a five foot nine, two and a half feet broad warrior, capable of evolving in any situation to suit his preference. Together, Genesis and Neuva were an unstoppable killing pair and in the end they were both defeated by Darius, the Dark Emperor, and Xenos Omega. Genesis would revert back to his original egg form in order to sustain life, and eventually hatched again, this time, willing to repent for his past deeds and murders. Genesis is calm, patient, clever, and boasts an incredible fighting skill. Inside his arms are two spike blades that emerge for dirty work. Though he appears silent at some points, he is only taking time to think on the current situation, or his next prank on his rival Dusk.

## 2. Oni

Age:???

hair/eyes: Usually purple hair, with light blue eyes, but tend to change when he uses assimilate ability

Bio: Oni is the very first breed of demons to ever walk, the arch daemons. During his childhood, his siblings suddenly attacked him one day without declaring reason. Oni fought back in the end, killing seven of the twelve, and fled to a pit in hell. The remaining five gave chase, and managed to finally subdue the demon with force, putting five separate seals upon his body. These seals hold back his transformation to full Guardian form and lower his power dramatically. When the struggle was over, Oni's eyes had been gouged out, even with his seven death counts and injuries he put on the others. Oni's eyes healed however, if one looks close they will see his eyes are actually a bright gray, indicating his eyes are actually dead, though he can still see fine. Oni would age in the pit very slowly, and finally was set free by chance. He assimilated his panther like properties from a half cat half girl named Selema, and with it the ability to speak. Oni would then go on seeking out the remaining five sibs.....Oni is a powerful fighter, relentless and vicious by nature, he wears a set of blades upon his tail for serious damage, aside from his claws. next to that, Oni has the power to grow or gain an opponents ability by assimilation.

Crush: Oni has become close friends with Selina, a fellow demon, whenever he is near her he becomes somewhat nicer, but still gruff. He rarely speaks to anyone, but will gladly talk to Selina. However, after his banishment in exile, Oni met a friend named momo, who he helped transform into a fellow furrrie, and through a course of events, has fallen in love with, and expects a first litter within months.

Once a month, during a full moon, Oni will go blind for a time. This relates to the curse of wearing his dead eyes.

NOTE: Selema belongs to KingdomHeartShera, Momo belongs to NamidaNara, Selina belongs to LadyChaos....steal them and I'll MAIM YOU!!!!
