LET'S TRY THIS AGAIN. *frustrated*

===

Sonic - One of the best guys you'll see and is the fastest around, Sonic is the hero of Mobius and has protected it from evil all the time. He's got many friends (plus Kirby) and is willing to save others. But, 02 may have what it takes to rip Sonic apart..

Kirby - The savior of Dreamland and a cute one to boot, Kirby is everyone's favorite pink blob of cuteness. He's a Star Warrior and has saved everyone from the clutches of Nightmare. 02 is here, and he sensed it, so now he's back to kick. His. @\$\$.

Tails - Sonic's right hand man and the smartest kid around. Tails is a good kid at heart but has trouble making his own choices. Tails is easily scared but will come in to save people in need when Sonic is occupied or not there. 02 seems to be after Tails for his intelligence..

Dedede - The pre-defined ruler of Dreamland and a bully. Dedede will take on anyone who gets in his way with his huge hammer of his. Dedede generally clobbered dat dere Kirby until Nightmare was defeated. Now, can Dedede escape from being possessed by 02... again?

Knuckles - A general tough guy and Sonic's friend. Knuckles is really strong but not that smart. He's also got a temper to show who's boss. 02 has taken Knuckles, how will Sonic take this?

Meta Knight - A mysterious Star Warrior. Meta Knight has fought in the war against Nightmare, but escaped as one of the few who survived the war after they lost. Since then, this old veteran lived in Dreamland until a new generation of Star Warriors will defeat Nightmare. (in which Kirby did) 02 and his minions seem scared to come close to Meta Knight, in fear the sword he wields will take them out.

1. Chapter 1: The Strangers from Popstar!

WHAT I HAVE TO RETYPE IT?! D:

===

It was a fine sunny day. It seemed as bright as it could be. But, there was one thing. Even though the most evil of the evil had been wiped off for once, something was wrong.

"Master, look. This is a perfect planet."

"...Mm..it seems... weak."

"Yes, we will take it and help you heal on it. Soon, we will have revenge on Kirby!"

"...mhmhmm..."

The civilians on the planet were celebrating. They had finally defeated Dr. Robotnik and took everything away from him. The heroes could finally rest...

"Hey.. hey look!"

"Those are some creepy clouds.."

"I never heard it was gonna rain!"

The dark clouds covered the planet known as Mobius, rampaging across the land. People began to scream as they ran for their lives. Lightning shook the ground as it struck and black blobs with a single eye attacked the civilians. Only few escaped, and the only people who don't know are Sonic, Tails and Knuckles.

Meanwhile, in the dark space, a small pink child known by many as Kirby was in a yellow star-shaped spaceship. He was gazing upon the stars and the galaxies he had seen two years ago. Sitting next to him was Meta Knight, who was steering the ship. He had agreed to bring Kirby if he would stop begging. At the opposite end of the room was King Dedede, snacking on some fried chicken. He demanded to come on as well. So, Meta Knight allowed him. (He was a bit hesitant however.) There was also a chockful of Waddle Dee that kept the ship clean and safe. Also aboard the ship was Meta Knight's crew, the Meta-Knights, (Think way back to Kirby's Adventure I think.) helping Meta Knight.

All seemed well, but Meta Knight noticed something. He had been star-gazing, and had flown into a new galaxy by mistake. "...Attention crew, we've gone off-course and are now in an entirely new galaxy." Dedede looked at Meta Knight disapprovingly. "Off-course'? We were going on a course? :c" "Yes, your majesty. I planned this only for Kirby but you insisted." Then there was silence. A "poyo!" and a thud broke the silence. Kirby had pushed Meta Knight off the chair and took to steering. "Kirby! What was.." Meta Knight stopped himself as the ship rattled and shook. Dedede was panicking. "KIRBY STOP STOP STOP OH GOD WE'RE DOOMED WE'RE DOOOOOOMED!" The ship had sped into high speeds toward a planet covered in darkness.

"S-Sonic.. I'm scared." "Don't you worry Tails. It's just the sky." "But, what if lightning strikes here? I read that lightning had hit one of Mobius's major cities.." Sonic smirked. "Come off it

Tails. Lightning won't hit here." "You sure, Sonic?" Knuckles, the red-head echidna (Knuckles: HEY!) had appeared in the doorway. "Yeah.. I guess." Sonic shrugged. Then, a sharp light appeared in the sky for a second and then poofed. "Was that.. a comet, Sonic?" "Nah, probably a meteorite. It's probably burnt up now." Well, Sonic was wrong. This 'meteorite' sped so fast it crashed into the ground and made everyone jump. "Wh-what was that?" "Well, only one way to find out guys!" The trio headed outside toward a space ship that glowed brightly.

2. Chapter 2: Friends Meet Friends!

"..."

"....."

".....Hello?"

Sonic spoke, his voice echoing through the spaceship. He walked inside through the damaged door, Tails and Knuckles following. He looked around at the crew, scattered and knocked out due to the massive hit. Tails shuddered, looking at them all. "Wh-what kind of aliens do you think they are, S-Sonic?" "Ya know, if one of them wakes up.." "Don't worry you guys. We can handle 'em, right?" "Pr-probably.." The three of them walked up to a metal door, which looked strong, too strong for Knuckles to knock down but the hinges were damaged due to impact. "Well, Knuckles, it's time for you to get the job done." "But, Sonic, that door is HUGE!" "Don't worry, we'll help you!"

"..."

"...ugh..."

"..Dang.. what.. what happened..?"

The king woke up, steadying himself as he got up. He looked around. "Where.." Then he sighted both Kirby and Meta Knight. Kirby was KO'd on the ground, next to Dedede. Meta Knight was also KO'd, a box laying on his foot. "Come on, you two, wake it up!" Dedede kicked Kirby and nudged the box off of Meta Knight, kicking him as well. Both got up, startled by the sudden pain. "Wh-wha..." Meta Knight stammered, confused. Kirby jumped up. "Po-poyo?" Meta Knight shook his head and looked up at Dedede. "What was that for?" He blurted, still dizzy and half-asleep. "That was 'cause you were sleepin'!" Dedede bluntly shouted back at Meta Knight, waking him up. "..I'm sorry, your majesty." Meta Knight said, realizing his mistake. "That's better... now wh-" "POYO POYON!" Kirby interrupted the King's sentence as he pointed at the dark clouds. Both Dedede and Meta Knight looked out and saw them. "Dang man, those are some vicious clouds." "... Kirby.. is this why you dragged the ship this way?" Kirby looked as if to nod to him but then...

The door was knocked down. The trio looked as another trio stood at the edge of the doorways. Both groups stared at each other when the red one broke the silence. "Who sent you guys here?" "Sent? No one sent us here." "Then why ARE you here?!" "... Knuckles closed his eyes and smirked approvingly. "See, I TOLDJA they were spies." "Spies? We aren't spies. Kirby.. he brought us here." "Kirby? What kinda name is that?" Sonic blurted. Then, Kirby stepped up as if on command. "Poyo poy!" Then, the animal trio started to laugh. "Th-that pink ball?!" "What kinda name is KIRBY anyway?" "Sure, my name is stupid but not like that!" But then, a loud slice stopped the laughter. Meta Knight had dragged out his sword and sliced the grounds, leaving a huge wound in the metal. "Shut your mouths. We are not here to laugh at each other's names. For what purpose we have crashed here, only Kirby knows, but it may have something to do with those clouds..." "Those clouds are abnormal." Tails quickly spoke up, agreeing. "T-they gotta be behind some forces.. Hey, what's your name anyway?" "..I am Sir Meta knight." "Sir Meta Knight huh? Kinda a cool name." Sonic admiringly complimented. "Well, I'm Sonic the hedgehog! This is my best buddy Tails and over here's Knuckles!" "I'm King Dedede!" "KING Dedede? You're a king?" "Yep, in my place I'm a king!" "Well, guys, let's get outta this spaceship, it's creeping me out..."

3. Chapter 3: The Ship's Crew!

Yeah, I'm adding a bonus chapter that will add to the story because I forgot to have Meta Knight make the crew and the Waddle Dee evacuate. D:

===

"..Hey... you guys okay?"

"..Mmm.. yeah. How about you, Trident Knight?"

"I'm fine. Ax Knight, you okay?"

"Yes. Everyone's alright, thank goodness. But, what about Meta Knight? Is he okay?"

"Oh my gosh, we forgot!"

"Ohhhh no, what if something happened to him?"

"We gotta find out!"

Ax Knight, an ax-wielding guy who works under Meta Knight's control, stood up, becoming the leader until they found out what happened to Meta Knight. Mace Knight, Javelin Knight and Trident Knight stood up as well, looking at one another. "Come on guys, let's go to the control room!" They all agreed and started walking toward the control room.

A few minutes later, Ax Knight wasn't paying attention when he walked into something. "Ouch! What the-" He was cut short when he looked up. He had just walked into Kirby! "Ehhh.. hey.. Kirby. Eheheh.." Ax Knight knew that Kirby was prone to eat Ax because he tasted like apples.. weird as it may sound. "A-gah!" Kirby smiled as he gulped Ax Knight in one gulp. And then, Ax heard a familiar voice. "KIRBY! Spit out Ax Knight at once!" Kirby did as he was told as he spat him out in the shape of a star. Ax broke out from the star and fell, wet with spit. "...Eeew..." He shuddered. Mace Knight, Javelin Knight and Trident Knight looked up at Meta Knight. "Sir Meta Knight, you're all right!" They crowded him with excitement. "Yes, yes. I am fine. Ax Knight, are you okay?" Ax Knight looked up, hardly believing it. "Si-Sir Meta Knight!" Sonic glanced down at them all. "Who are these creeps?" Meta Knight gave Sonic a sharp glare. "These four are my crew. Mace Knight, my force of power, Javelin Knight, enduring any hit. Trident Knight, with long distance attacks, and Ax Knight, my right-hand man." All four looked up at Sonic, with a confused look. "Sir Meta Knight, who is this?" "This guy looks kinda weird.." "He's a hedgehog, from what I read." "Come off it guys, he looks harmless." Sonic's ears drooped but he smirked. "I'm Sonic the hedgehog! This is Tails and here's Knuckles!" All four knights blinked and then stared at Meta Knight. Ax Knight whispered in a sharp tone. "You befriended these freaks?" "Well, their planet is in danger, I might as well have to."

4. Chapter 4: The Appearance of Dark Matter!

WTF IT WON'T SHOW. Chapter 4 is here I think.

===

"..Master?"

"...What is it.."

"Well, you see-"

"...Cut to the point... if it's more important than I.."

"Well, Kirby and his friends have landed on the planet."

".. Get rid of them.. send the troops.."

"Yes Master."

Meanwhile, in Tails's lab, a convo was going on.

"So, you work for Meta Knight?"

"Yes, yes we do."

"What do you do here anyway?"

"Well, normal stuff for a hero. Save people, beat evil, that kinda stuff. Oh, did I mention I can run at supersonic speeds?"

"Well, we'd love for you to demonstrate, but this planet might be in danger."

"Say, what if-"

Knuckles's sentence was cut short as the ground rumbled and shook. The whole house trembled as everyone ducked, knowing it was an earthquake. Once it stopped, however, everyone was afraid to look out. "I-I'm not going out there." Both Tails and Ax said. Knuckles got up. "Come on, you're all not tryin'." "Then why don't YOU go out there?" Mace Knight shouted at Knuckles. "..Maybe I will go!" He stomped out. But, he never returned. A few minutes passed, and Sonic began to gain interest. "What's he doin' out there?" Sonic asked himself as he got up. "We should go look." Ax Knight replied, looking at Meta Knight who was unusually silent.

Outside, the sight was phenomenal. A bunch of dark blobs were floating in the air, and Knuckles was with them. Sonic was about to call Knuckles to them but Kirby silenced him. Sonic looked at Kirby with anticipation. "What?" He whispered to Kirby. Kirby motioned everyone to stay, and then snuck up behind Knuckles. The other dark blobs didn't notice at all. "What is Kirby.." Sonic blinked.

Knuckles's eyes were completely red and a dark presence can be felt near him. Kirby shuddered but noticed these features. They reminded him of a demon beast. And demon beasts were to be inhaled. So, following his memory and instinct, he did something Sonic and Tails would never believe-

He ate Knuckles whole.

5. Chapter 5: Epic Battle!

Oh my god. Bad kirby, BAD. *slap*

===

Sonic and Tails both stared in disbelief. Kirby had eaten Knuckles whole. It was silent, and then Kirby spat Knuckles out at the leader of the Dark Matter, knocking them both out. Sonic could only stare. "How.. what.. when... whuh... uh.. huh..." Tails whimpered. Meta Knight then stepped forward, grinning under his mask. "That's..." Meta Knight started, as Kirby jumped into the air. Kirby's sequence of transforming began, and he gained his old power. Let Meta Knight explain:

"That's Fighter Kirby!" "Fi-fighter kirby?" Sonic half-heartedly asked. "Yes. With this ability, he will be able to use martial arts attacks." "Si-sir! He's way outnumbered! Even if he's dealt with many enemies before, not as many as this!" "...Mm, you're right. We should go help." Meta Knight withdrew his sword as he dashed out. "Kirby! Fight!" Meta Knight shouted as Kirby began smashing into blobs. The biggest one awoke as the fighting started. "Mmm.. K-Kirby.." It's only eye glared and then it took off.

The blobs proved to be hard. They dashed quickly into them and smashed them at every chance they got. Kirby kept dashing and smashing to survive, the Meta-Knights used their weapons and dashed when they got cornered, Sonic was spinning, keeping them from attacking him and Tails was flying, holding a gun he hand-built that covers his hand as he shoots them. The only one that was not attacked was Meta Knight. He was actually doing the attacking but not at all being attacked. The blobs kept coming, but Knuckles had disappeared. Soon, though, those blobs became less and less, until there were none in sight.

"Whew... that was.. tough." Sonic complained as he heavily breathed.

"Geez man, those were a lot!"

"Sheesh, you gotta admit, Dark Matter can multiply quickly."

"..They were tough.. but none attacked me."

"Maybe they're scared of you?" Sonic joked suddenly.

Meta Knight would of glared at him hadn't his sword glowed brightly. "...Galaxia.." Everyone watched as the sword shined for a moment more, and then the light faded slowly. Sonic then shrugged. "What was that?"

"...Galaxia." "Galaxia?" "That is her name." "HER name? Huh?"

Meta Knight then silenced himself. "You will know in time." Everyone but the Meta-Knights were confused as the five of them (Meta, Ax, Mace, Javelin and Trident) walked back into Tails's hut. "Huh... I'll learn in time will I?" Sonic said to himself and then snickered. "Looks like Dark Matter's gonna have a hard time!"

6. Chapter 6: Meta Knight and His Explaining

Sorry for this being such a crappy chapter, I felt like crap today and was tired so uh.. D:

===

Everyone sat inside Tails's hut, silently. Not even a sound of a cricket was heard. It was completely quiet, until Sonic broke the silence.

"So.. that guy.. Black Matter? He took Knuckles.." His hands clenched into fists.

"Yes.. for now he is possessed. I do not know of what will happen to him. Only Kirby and his majesty knows."

"You mean Dedede, right?"

"Yes."

Kirby sat in his seat, playing with a spork.

"Speaking of Kirby.. how did he.."

"It's called an inhale. He can inhale most enemies unless they're too big or too heavy. Once he inhales them, if they have a special ability, he can copy it, which is called a copy ability."

"Ah... so what he did.."

"Apparently, your friend wielded the fighter ability. He must have been strong in martial arts."

"Yep."

The talk went on between Sonic and Meta Knight for quite a while. It was saddening for Sonic to lose Knuckles to 02 but he wouldn't give up. No way. "Say.. Kirby can eat stuff and become stuff right?" "Yes, he can inhale and use copy abilities." "So, why can't he eat Dark Matter or whatever?" "Because it's too big for him to inhale. He must exhale something at it's eye or hit it with an attack from the ability he has currently." "...So, we can go at any time right?" "If you want to get killed, yes." "...". Sonic then looked down. "I guess we'll have to think of a plan then?" Meta Knight nodded.

SILENCE

===

It was silent. Real silent. They thought for a while, on how to get in. Kirby was still playing with the spork, and Dedede was fumbling with his thumb. Tails then had an idea. "Hey, uh, how dangerous is this going to be?" "Very dangerous. We could lose our very lives to Dark Matter if we aren't careful." "But, the Dark Matter were avoiding you. It's gotta be that sword, right?" "...You could be wrong, but I'm sure it is Galaxia. What is it that you're thinking?" "Well, I'm trying to piece it all together, but I'm pretty sure it should have to do something with you.."

Kirby looked up and ran toward Tails, waving his hands in the air. "Poyo poyo! Galaxia poy!" Both Meta Knight and Tails looked down at Kirby as he failed at speaking to them. Meta Knight then looked at his sword, Galaxia. Sonic then butted in. "Couldn't we just get over there? We fought and won in that group of Dark Matter!" Meta Knight thought hard. "..There must be many more of them at the Dark Matter base.." King Dedede then agreed with Sonic and Tails. "Come on, Kirby's done many dangerous things before!" Even Meta Knight's crew joined in. "It'll be dangerous sir, but we're all willing to do it!" "Yep!" Sure are!" Meta Knight was outnumbered. "Alright, fine. We will go. But we need a type of transportation and a way to get in." Sonic then smirked. "Alright, we'll be taking Tails's new plane." "We are?" "Sure, why not? It's been tested and all that stuff hasn't it?" "Ye-yeah but.." "Come on Tails, let's do it." Tails gave up. There was no outarguing Sonic. "..M-mkay. I guess it could work. I'll pilot it." Everyone looked at Tails. "You will?" Meta Knight said, his eyes giving off a glare and also a touch of fear. "Yeah, I can fly planes. I've done it before." Everything was silent.

...

.....

.....

"So, are we ready?"

"Yep, let's go."

8. Chapter 8: Tails's Plane!

Oh shiz, I'm running out of ideas. HIT ME WITH A HAMMER WHY DON'T YOU. D:

===

"So, where is this plane of yours?"

"Well, you gotta wait here for a sec."

Tails walked over to the other side of the hut and moved a box that was against the wall. There was a device with keys that looked like a keyboard on it. Tails typed in something with his hand. "M-t-p-s-t-h" he said to himself. (Free request to whoever guesses what that means! Only one person gets it however. I'll take this down once someone guesses right.) Suddenly, the house started to shake, just a little, but Sonic didn't flinch. The ground was slowly opening up, and a secret passage way was revealed. "..H..how..?" Ax Knight was bewildered as he uttered those words. "I built this hut by myself, along with a secret passage to get to my planes, and to store them." Tails then twisted his tails and gently hovered down into the passage. A platform glided up and awaited. "Come on, let's go!" Tails's voice echoed from the passage. Ax Knight and Meta Knight were a bit hesitant to go, but then Mace Knight grabbed both Ax Knight and Meta Knight and dragged them to the platform. "He doesn't have all day, does he?" For once, Mace was right.

Everyone was totally bewildered, except for Sonic of course. "This.. this kid is quite the smart one to build all this.. did he really do it himself?" "Yep. But that's what to expect of a bright kid like him. He's been with me for a few years now, and we're the best of friends." Sonic then gave everyone a thumbs up and then walked into the hall. Everything was black with green lines running through the hall, which brightened up the place. Cautiously, Ax and Mace stepped forward, and followed Sonic. Kirby began to run and jump around, being very excited. Meta Knight wondered how this was possible as he followed with Javelin and Trident behind him, being unusually cowardly. King Dedede had been silent the whole time, looking at everything with amazement.

Tails then stopped, looking behind him as Sonic walked up to him, Kirby, Ax and Mace behind him. "Where's Meta Knight? Javelin Knight? How about Trident Knight or Dedede?" Sonic looked behind him, as well as Ax and Mace. They were walking slower than Ax and Mace, taking their time to let this sink in. "Well, here we go. It's in this room." Tails typed three numbers with his hand on another keyboard thing, only with numbers. They were: 0 1 5. The door opened and then, amazement washed everyone over. There it was, the plane bound to take them to 02.

"I call it, the Space Tornado!"

9. Chapter 9: Now Entering: Space Tornado!

VEGETA, WHAT DOES THE SCOUTER SAY ABOUT HER AWESOME LEVEL?
IT'S OVER NINE THOUSAAAAAAAAND
WHAT NINE THOUSAND?!

===

The whole thing was amazing. It looked nothing like a plane, but more of a space vehicle. It was shaped to look as if it's going fast. The plane had rocket boosters for launch and speed. Practically. It. Was. Freakin'. Huge. Even Sonic was totally impressed. But then again, who wouldn't be?

"I...impressive.."

"That's quite a.. plane. Or is it a space craft?"

Tails looked at them as they couldn't tell if it was a plane or a space craft. "Eheheh.. I wanted a space craft that could surf through space but also I wanted a plane that could go at high speeds so I did a little mixing. Ehehehe.. ^^;"

Everyone looked at one another. "S-so.. this is o-our transportation.. ri-right?" Ax stammered. He has never been surprised this much in his life. Tails nodded. "Yep. It has already been on a test run, everything is perfect, I checked the oil and it's full, fixed a few bugs before lift off, so I'm sure it's ready to go!" Meta Knight and Dedede were speechless. "...Say... you sure it'll bring us to Dark Matter's base?"

"Sure as sure can get!" Tails said, smiling.

"...Master?"

"...Dark Matter... have you returned.. triumphantly?"

"...No sir... three nuisances have joined that brat Kirby and defeated all the troops.. I'm sorry my master."

"..No matter. My healing is more than half finished. Soon... we shall take Popstar."

"..Mhmhmmhmm.."

Everyone was boarding the ship. It was quite huge, so it would definitely hold everyone on it. Tails stood in the control room, holding the controls. Tails pushed a button and a screen came up. "What's that?" Trident asked. "This is the navigator, it'll help us find Dark Matter." Kirby spoke up. "Poyo.. Darhk Mahter.." "Yes, Dark Matter. We'll find 'em and smash 'em to pieces!" Sonic exclaimed. "And rescue Knuckles!" Tails added in. "Don't get ahead of yourselves you two. We still have to find them and find a way to get inside." "Oh yeah, right." Tails looked at the buttons and a joystick. "Get ready! Main ignition launch!" And he pressed a button.

"MAIN IGNITION LAUNCH IN FIFTEEN SECONDS."

"..."

"TEN. NINE. EIGHT. SEVEN. SIX."

"FIVE. FOUR. THREE. TWO. ONE."

"LIFT-OFF."

And then, the ship's boosters went into effect. The ship slowly rose and then went up, faster and faster until they were finally out of the hanger. The ship then flew out into the air, away from Tails's hut. "All right, we're out! Now, navigator, tell us where to find DARK MATTER'S BASE." "Scanning... scanning.. FOUND." A red dot appeared on the navigator, far north-northeast from there. "Hey, that's.. one of Mobius's major deserts!" Tails then switched a flip-switch and pushed a lever, sending the huge ship flying across the ocean.

10. Chapter 10: A Great Way to Start Off?

"...It really is awful.." D:

===

The entire ship was buzzing with excitement. Sonic was walking around with Ax Knight, having a conversation, Dedede was chasing Kirby with his hammer around the ship, Meta Knight and Tails were in charge of the ship's controls in the control room, Mace and Javelin were having a little chat while drinking Dr. Pepper in the kitchen and Trident Knight was sitting alone, reading a book. It was a busy place, certainly. For a while, everything was just as if it was only a vacation. The fun would soon end, however. Tails spotted some red dots heading their way. "Here comes some Dark Matter!" Meta Knight then looked at Tails. "What shall we do, Tails?" "Pull up the gunners on the ship. You see that button there?" "Yes." "Press it when I say so." Meta Knight nodded as he rest his hand on it.

"Not yet... not yeeet..."

"PRESS IT!" Meta Knight did as told.

Guns appeared on the large ship, the Space Tornado, as they shot at the dark blobs of Dark Matter straight in the eye, killing many of them. Some, though, dodged. "Oh no! There's some on the ship!" Tails then reached for the micro. "Attention, everyone! Dark Matter have boarded the ship! Prepare yourse-" Tails was cut short.

"Wh-what's going on?" Ax stammered as Mace and Javelin ran into the room. "I dunno, Ax. We gotta go find out what had happened to Tails!" "Sir Meta Knight too!" Javelin added. Kirby was hugging Dedede in the main room, as the lights on the whole ship went out. "Po-po-poyo.." Dedede was admittedly hugging Kirby as well. "I'm scar-scared..._;" Trident appeared next to them. "Guys, sorry for the hugging interruption but we gotta find the others!" Trident then grabbed Kirby and Dedede and dragged them off with surprising strength.

The two groups met up in front of the control room. You could hear shouts inside as the ship started to shake violently. "Wo-woah! What's going on?" Sonic said as the ship trembled. Ax opened the door to see that Meta Knight and Tails were fighting, but something wasn't right about Tails. "T-Tails! Meta Knight! What's going on?!" Meta Knight glanced at Sonic. "Tails has been possessed by Dark Matter! We have to defeat h-" Meta Knight jumped as Tails shot at him. The ship started to flip. "Tails, no!"

Ax and Javelin tackled Tails, pinning him down as Mace grabbed a board and hit Tails on the head with it, knocking him out. This all happened lightning fast so 'Tails' wasn't able to respond. Sonic walked over to Tails he was covered in darkness, but it faded away and completely disappeared. "Was that.. Dark Matter?" "I believe so. Tails was taken by Dark Matter and attacked me. I'm sure this one was the main captain of this attack, so the others must of fled. I'm sure they all have some connection." Meta Knight turned the lights back on and completely took over flying the ship for a while.

"...Master.."

"..Dark Matter, you seem weak."

"...I was defeated by those pesky heroes..."

"Mmmhmm.. Well. I am getting better by the minute. If Kirby shows up.. he will die with my new profound power."

"..Yes, Master."

11. Chapter 11: Not Even Half Way There.

Poor Tails. *smacks 02 with a cross*

02: Ow. D0

===

Everyone was chattering in the main room, except for Meta Knight, who silently drove the ship. Sonic was sitting with Tails as he was still KO'd. Ax was talking with Mace.

"Why'd you hit him so hard? You-"

"Oh come on! I was scared, alright?!"

"But, still.."

"Shut it Ax. I know I know.."

"You're the only one who carries a mace that's ten tons >.>:"

"...I know. D:"

Trident and Javelin were drinking Cherry Coke and chatting silently. Sonic stood up and walked off toward the control room.

"..."

"You seem calm, Mety."

"..Believe me, I'm not. Also, don't call me 'Mety'."

"Well, Dark Matter just attacked this ship, Tails was hit so hard he probably got a migraine and-"

"Shut up." Meta Knight's sharp tone silenced Sonic. "You don't think I'm scared? I'm more than scared. Dark Matter is ultimate evil, you should get that. I get it more than ever, and I know that I'm risking my very life to defeat him, for good this time. Knowing this information, I am more than frightened."

Sonic stared at Meta Knight for a good ten minutes of silence and then stood up. And then, Sonic smiled. He spoke in a brighter, cheerier voice; "Come off it, we'll all get though! Even if you aren't so sure, we're all here. When we get there, if we get there, we'll defeat Dark Matter. So lay off that stress, we'll get things done! =D"

Apparently, for some reason, that lightened Meta Knight's mood, because when Sonic left the room, he looked back. "Sonic.. you're carefree. I wish I could be like that." With that, Meta Knight turned back to steering.

12. Chapter 12: Desert Sands and Dark Things!

This has got to be my favorite chapter title. I don't know why but it just looks.. good.

===

"Master..?"

"I feel great and powerful. I am almost at full power! Where is Kirby and his pitiful friends at?"

"Well sir, they're going over the desert.. it seems that they'll soon reach our base."

"Hmm. Well, we shall try one last attempt to take them down! Send the troops! You stay here though, with the commanders. I wouldn't want you to be defeated as quickly if Kirby pulls through our troops!"

"Yes sir."

The dark blob looked away, floated a few feet away from the huge white blob, and then thought to himself.

If Kirby pulls through.. what will happen to Master?

"Hey, Tails is waking up!"

Sonic, Ax and Mace were looking over Tails's head, watching him slowly come to his senses.

"Oooh.. wh-where am I..." Tails shook himself away and sat up, looking up at the three. "Tails, you're okay!" "I.. I am?" "Yep!" Mace then happily looked at Tails, his eyes gleaming with delight. "I saved you from Dark Matter." "Nuh-huh! Javelin and I held him down when yo-" Sonic quickly cut him off. "WELL LET'S HAVE some Dr. Pepper, everyone?" "Uhh, sure!"

Tails took his Dr. Pepper and walked up to the control room. Meta Knight was silently steering, but somehow knew Tails was there. "You're okay, Tails?" "Ehhh, yeah I guess. How long was I knocked out?" "Half an hour." "Wh.. um.." Tails walked up to the control panel and grabbed hold of the steering wheel. "You're sure you're well enough to drive again?" "Yeah, I don't feel any pain." The two fell silent as the ship flew off.

"Sir, the troops are ready. Shall they go?"

"Yes, get going. I want to see Kirby defeated! >:3" (Yes, he actually tried to make that face.)

"...Uh okay. >.:;"

"Look, Dark Matter are attacking the ship again!"

"This isn't good!" And with that, Meta Knight pushed the button Tails instructed him to press earlier when Dark Matter first attacked the ship.

The guns appeared and shot down most of the Dark Matter. Like before, a few dodged the guns and headed into the ship. Meta Knight stood behind Tails as he operated the ship, not willing to make the same mistake.

The ship rattled and shook. Javelin and Trident ran into the main room with Sonic, Ax and Mace. "Wh-where's Kirby and King Dedede?" Mace exclaimed as the alarm went off and Tails's voice echoing through the ship, saying that Dark Matter has boarded the ship. "I don't know! We gotta find them!" "You're right, let's go!" The group of five ran off into one of the corridors.

King Dedede was flipping through a picture book when Kirby appeared in the library. The voice

of Tails echoed through and Dedede freaked. "Wh-what?! Again?! What's going to happen?!" "Poyo Darhk Mahter poyo poy!" "I don't even know what that means but I'm scared!" Then, a dark blob appeared in the door way, with five others. It's menacing stare caught Kirby and King Dedede and it dashed at them. "Ki-Kirby! Do something!" Kirby was too scared to move. Then, Dedede knew just what to do. He jumped up, and his hammer mechanized. "Alright you stupid balls of black..ee.. ness! I'll smash you wit' mah Jet Hamma!"

Bam. Vroom. Smash. The Dark Matter were like cannon balls, smashing into stuff in the library. When the final one was destroyed, something light emitted from it. Kirby ran up to it. "What's that?" "Poyo poyu..?" Dedede picked it up. Then, the group of five reached them. "You guys alright?" "Yep, I took em out wit' mah Jet Hamma!" "Who?" "The Dark Matter of course! :D"

13. Chapter 13: Powerful Emeralds

I'm.. so sorry for the picture from the last chapter. And I'm sorry for not posting in a while. And I'm so sorry this chapter is crappy. QAQ

The group walked back toward the main room. Meta Knight was waiting there. "Are you seven alright?" Sonic nodded. "Yeah, I think we're fine." "I clobbah'd dem all wit' mah hamma!" Dedede exclaimed proudly. He then grinned when he felt something. The emerald he was holding was gone, Kirby had swiped it! He looked at it for a second. "Poyo poy!" Sonic noticed Kirby and looked. "That's a... Chaos Emerald!" Meta Knight took notice, and so did Ax and Mace. "What's a 'Chaos Emerald'?" Ax asked, looking at it. Sonic then swiped it from Kirby and threw it up and down with his hand. "This is a Chaos Emerald. Ya see, Chaos Emeralds are jewels with powers." "What kind of powers?" "Really strong ones. There might not be a limit to how powerful these emeralds are. Chaos Emeralds will give the user power if a certain one is held. I should know from personal experience." "Personal experience? Wha?" Sonic shrugged. "I used them a lot back then. This is a green one, which allows the user to use Chaos Control more often.." "Chaos Control?" "Yeah, lets me warp though time and space. Shadow taught me that, heh." "Shadow?" "One of my friends." Dedede stared at it. "Any other Chaos Emeralds?" "Oh, yeah. There's seven Chaos Emeralds in total." Sonic smirked and dashed off. Moments later, he returned. "Where were you going?" "Putting the emerald back. It belonged in generator, Tails said." Meta Knight nodded. "I'll be heading back to the control room then, if everyone's alright." He then turned and left without question.

Apparently, everything quickly went back to normal. Sonic was chatting with Dedede and drinkin' some Pepsi, Aw and Mace were silently reading Trident's book (and fairly disgusted by his good taste), Trident fell asleep and Javelin was with Meta Knight and Tails in the control room. Kirby was eating once more, like always. Everyone but Kirby and Tails thought about the Chaos Emerald, and what kind of power it might have.
