1 - Kenta Tanaka

Everything (c) of me

Name: Kenta Tanaka (or Ishida instead of Tanaka)

Age: 15

Gender: Male

Species: 1/3rds water nymph (mother), 1/3rds Quincy (father), 1/3rds hollow (mother had hollow that transferred to him making him born an arrancar); later becomes a soul reaper a.k.a. shinigami; later get his heart back (arrancars don't have hearts, they have holes) making him a vizard

Height: 5' (five feet)

Nationality: Japanese

Weight: 100lbs

Hair: Sky Blue that stops above his butt and sometimes he wears it in a poofy braid

Eyes: Hawk-like, Sapphire Blue

Body Type: Normal (except for height ^^)

Family: Uryu Ishida (cousin), Ryuken Ishida (uncle), Soken Ishida (grandfather), Sota Ishida (father), Unnamed mother, and Kumiko 'Koda' Takagashi (half-sister)

Lives w/: Father

Blood Type: O-

Birthday: March 14 (White Day in Asia)

Personality: Shy, scared, sad, trusting, understanding, and selfless

Weapon(s): Water (and all its forms; he got it from his mother) manipulation, being made of water (shapeshifting; he has no true form)

Signature Item: Yin half of a Yin-Yang necklace

Love Interest: Orihime (formerly; he got his heart broken T-T); currently none

Friend(s): Rangiku, Rukia, Chad, and Hinamori

Likes: Summer, rain, Sundays, glass, water, Yin, irises (as in the flower), stain-glass windows, and old, oriental paintings

Dislikes: Being alone, being lied to, cooking, cleaning, and romance movies

Other: Because his mother was a water nymph, she had to give Kenta because he was a male. She gave him to his father Sota who she had been secretly in a relationship with (I made it where the water nymphs are like the ice apparitions of Yu Yu Hakusho and live without men). Sota raised Kenta alone. Koda's dad, Takagashi had died before their mother even knew Sota existed.

2 - Apollo Percy

I found these pics on photobucket; they look like what I imagine him to have looked like.
Name: Apollo Percy

Age: He was born in 1859 whereas Haji (142) was born in 1851 making him 138 yrs old; he appears to be about fifteen

Gender: Male

Species: Half Chiropteran

Height: A little shorter than the giant Haji

Nationality: Unknown

Weight: 113 lbs

Hair: Golden Blonde

Eyes: Red (left); Yellow (right)

Body Type: Tallish

Family: Unknown

Lives w/: None, but practically with Saya

Blood Type: AB+

Birthday: Unknown

Personality: Cold and Harsh on the outside; child-like on the inside

Weapon(s): Razor sharp strings, Chiropteran claws, fangs, and dagger

Signature Item: None

Love Interest: Saya (Actually more of a childish, puppy-love thing)

Friend(s): None

Likes: Blood, Fighting, candy, and sleeping

Dislikes: Haji (he hates him for stealing his attention from Saya), hentai, Haji, yayoi (he's typical a boy), and did I mention Haji?(:3)

Other: Apollo was made a Chevalier by Saya at age four because he got ran over by a horse and nearly bled to death. Until Saya went back into hibernation, he had tried so hard to get her attention, however, she was always with Haji. He started to hate Haji for stealing 'his attention' and Saya for ignoring him. A few weeks after she went back into hibernation, he left to travel the world. After Saya reawakened into about present day time, he found her while on the cruise to Vietnam. She attempted to kill him because of her loss of memories. Of course, she didn't kill him. He managed to escape her for then. Whenever she fought Carl a.k.a. the phantom, he nearly killed him with his razor string. After Carl escapes, Saya confronts him only to be told that he was also a chevalier like Hagi/Haji. He reveals that since he became a chevalier at such a young age, his little body couldn't handle the change making almost exactly half of him Chiropteran. He then stays with Saya and Haji. Once or twice he remarks coldly, "Of course you'd believe your precious Haji or me," whenever he and Haji get into arguments.

3 - Aloria

Name: Aloria

Age: 14-15

Gender: Female

Species: Human

Height: 5'4" (five feet, four inches for those of us who didn't know)

Nationality: Well she lives in the Hoen Region...

Weight: Maybe like 104 or something...

Hair: Light Blonde

Eyes: Dark Blue

Body Type: Petite

Family: Jeremy (older brother), Shane (younger brother), and unnamed parents

Travels w/: Jordan

Blood Type: A+

Birthday: Feb. 14, Valentine's Day

Personality: Quiet, Kind, Gentle, and understanding

Team: Leafeon, Glaceon, Lucario, Blissey, Arcanine, and Charmander

Signature Item: Sun hat

Signature Pokemon: Leafeon and Glaceon

Love Interest: None, unless Mewtwo fangirl counts...

Friend(s): Jordan, Ash, Brock, Dawn, and Misty

Likes: Dresses, ribbons, flowers, bubble baths, healing pokemon, and grooming pokeon

Dislikes: Battling/hurting pokemon

Other: Aloria is the younger sister of Champion Jeremy (another of my OC's ^_^). She wants to be the greatest Pokemon breeder and a nurse. She often plays the role of damsel-in-distress (Ex: she was near the top of a mountain when a gust of wind blew her hat off. She chased after it and fell off the side of the mountain. Leafeon, used vine whip to catch her and pull her back up.). She got her Glaceon from Jeremy (because it hated him for no reason) and Leafeon from her younger brother, Shane (Leafeon wanted to stay with her instead of him because he [Shane] was annoying.). Her favorite type of pokemon is psychic, even though she doesn't own one. Her former favorite pokemon was Espeon, then, she seen Mewtwo protecting her from Team Eon (my made-up evil organization) after she risked her life to protect Mew.

4 - Jeremy

Name: Jeremy

Age: 17

Gender: Male

Species: Human

Height: 5'8" (five feet, eight inches)

Nationality: He's from Hoen too

Weight: 120 lbs

Hair: White and MESSY

Eyes: Dark Blue

Body Type: Average

Family: Aloria(little sister), Shane (little brother), and, unnamed parents

Travels w/: No one

Blood Type: A+

Birthday: September 15

Personality: Quick-witted, strong-willed, reliable, a little ditzy at times, and protective

Team: Vileplume, Toxicroak, Houndoom (I accidentally put Houndour on my pic of him), Shedinja, Butterfree, and Abomasnow

Signature Item: Glasses on top of his head

Signature Pokemon: Vileplume

Love Interest: None

Friend(s): Ash, Wallace, Lance, and Drake

Likes: Battling, Board games, Sudoku, and making strategies

Dislikes: Being late, trainers that don't care about their pokemon, and rudeness

Other: Jeremy is the more responsible one of family. He gave his Glaceon to Aloria because she was the only one who it actually like out of his family. He can't stand to be around trainers like Paul who abuse their pokemon. His first pokemon was an oddish; his favorite type of pokemon is poison ones. He, out of battles or other serious situations, can be a little ditzy and forgets where he left his glasses (which are on his head the entire time). His major strategy in battles are to use status problems (poison, confuse, etc.). His former Glaceon pretty much acts just like him.

She and Kito came from another pride that was destroyed by buffalos (they are lions natural enemy, I think). Kito raised her, and she easily gets herself into trouble (like a kitten). She is always seen carrying a plushie of some kind (mostly notably a white cat plushie with brown spots which is her best friend); she is physically very weak but extremely mentally strong (even correcting a teacher once). Other (there is a bunch so I'll try to make it short and sweet ^^):

*She was found as a baby by the third hokage in a destroyed section of sand village during the war with sand village. He took her in and raised her out of pity. As a result of being from sand village, she was forbidden to never become a ninja in fear she would turn on the leaf village.

* She is considered a reject by just about everyone in leaf village because of freakish light hair (she got the nickname 'Ectoplasm' because of its ghostly appearance) and orange eyes.

*She secretly studied ninja scrolls and watched the other ninja of the village, bacially teaching herself

*Kabuto, on the information gathering mission during the chuunin exams, faked a freindship with her in an attempt to get more information. Later on when Tsunade becomes the fifth hokage (after returning to leaf village from fighting Kabuto), Kikuko realizes Kabuto, her only friend, had lied the whole time. However, she disregarded that and still considers him a friend. She believes something is wrong with him (emotionally). I made it where secretly he develops a soft spot for her until he realizes his true feeling for her and vice versa.

*She first wears a black jinbei and black Kung Fu shoes (like Jakckie Chan ^^). chrysanthemums are a kind of flower that looks like a daisy with 17 petals that can symbolize death and/or joy
