**Chapter 1 - Thread**

# 1 - Thread

ring me away.

Take me down  
away from here  
hold my hand  
and ease my fear

Guide me back  
and take me to you  
end my hate  
and bring me home.

Save me.

I cannot save myself  
make me breathe  
and give me life  
lift me up and  
breathe into me  
I am starting to fade

Some would say  
to let me go  
I will wait here for you  
fall or fly  
live or die  
all is starting to fade.

Won't tell.

I will not tell you  
what I know  
as we stand in falling snow  
and my heart is growing slow

I cannot tell you  
what I know  
as we fall into the snow  
and fierce winds past our faces blow

Do not ask me to tell you  
what I know

together now, beneath the snow  
as so cold our bodies grow  
do not make me cause you pain.

By a Thread.

My love is hanging  
in the sky  
chains wrapped round her  
arms and legs  
blood is flowing from her eyes  
and life is scraping evil's dregs

I strive to bring her back to me  
but I find I cannot see  
and what she once meant to me  
will surely break my heart  
I fear I'll come apart

To lose her now  
will end my life  
as I watch her  
cease to strive  
chains and blood  
run 'cross her skin  
and my vision now runs thin.

Keep your mouth shut.

I know what you've done  
there's blood on your hands  
you're clearly at fault  
alone in this land

To right this mistake  
you must listen to me  
together we'll fix it  
just wait and you'll see

So smile your false smile  
from behind your gold mask  
as we undertake this task  
I will venture to smile back

Just remember that I know  
who you betrayed  
so long ago

do not tempt me, my old foe

I own you now  
I know your secret  
and you'd better hope I keep it

So lift the shovel  
dig a hole  
dump the corpse  
and burn the mold

Leave no traces  
'midst the leaves  
they'll never know  
just you and me.

In Exile.

Lost and broken  
lorn and soaking  
'neath the bridge  
beside the dale

So long ago I lost my home  
nowhere left to run  
or roam  
buried here beneath the loam

I draw a ragged breath  
and rise  
eyes turned now  
away from skies

I stagger as I try to walk  
my body broken  
as I stalk  
the footsteps  
of our endless talk  
in nascent, speaking dawn.

Trapped in open air.

None before me  
none behind me  
if you looked  
you couldn't find me

I am hiding  
right beside you  
why with this secret  
do I confide you?

Because I trust  
and honest face  
and secrets unknown  
I consider a waste

So turn your eyes  
and look at me  
you understand now  
why try to flee?

Anora.

Child's heart  
Demon's soul  
darkness rots  
the empty hole

Nothing more  
and nothing less  
she is laughing  
at your death

Feeling nothing  
but pure child's glee  
slit my throat  
she'll laugh at me.

What did I say?

I saw you lying on the floor  
you slit your wrists  
you breathe no more  
bloodstains on the kitchen door

I fall down  
beside your head  
praying now  
that you aren't dead

But I know  
before I stand  
you have left me to face

this dark and bitter land

Was it too much  
for you to bear  
could I have held you  
though I too despair

I feel nothing  
as I cradle your bloody face  
in my arms, and whirl through space  
but my tears fall, and on you they leave no trace

I let you slide  
onto the floor  
fingers numb  
I care no more.

You.

I feel nothing but love  
though my life is so bleak  
I see nothing but you  
from my lonely peak

I can't reach you  
though I hear your voice  
I can't hold you  
and my arms are growing tired

Soon I'll find you  
cast of my bonds and run  
we'll be together  
beneath the setting sun.

Why does anything matter anyway?

Why do you care  
you did not seem to mind  
when my life was over  
when my heart was deaf and blind

So stop prying  
leave me here to cry  
I am losing what I loved  
and my heart begins to die

I don't want you

get away from me  
is it not plain  
that I want to bleed in peace

I need air now  
I am trying to draw a breath  
but I can feel it  
the lover's kiss of death.

Cracked.

Take me  
don't break me  
I need you  
to feel

I draw my last breath  
all covered in death  
fade away  
in the light of day

Empty inside  
for much is forbidden  
that which is taken  
can never be given

Don't ask me to care  
don't make me refuse  
I can't turn you down  
there's too much to lose.
