1 - Season 1- Scouts Wanted!!! Please Join

Ppl idk what got over me on not doing my other stories. Though I thought...maybe if I did a new story it will effect the other stories in a good way. So this info below for this Sailor Moon Fanfic will create the OC into some1 who seems real. Some things may sound like it was a real person. Oh and try to get different elements after u read every1 elses info. I hate it when u have like 2 water element senshi/scouts...it drives me nuts.

Here r the rules

- 1) U must b comitted if u wanna join.
- 2) No flammers
- 3) If u dont give me a real personality I'll give 1 for u.
- 4) Dont change anything about ur OC on surprise and when the story has started until the next season.
- 5) ENJOY!!!!

Please PLEASE chose 1 or 2 elements and give me ur major element if u have 2 so i know where u fit in...

Also specail thanks to members and the co- author...Tuxedo_Mini_Mask!!! We love u all!!!

Sailor Senshi...they're rare to find. Yet, once you know them, you know them. They take you off your feet. Sometimes its true. Though our world has seen many senshi, they havent seen anything like the scouts of this generation.

You see, these scouts were so powerful they're parents had to send them away form the moon to other planets. Along with themselves. They young scouts werent aloud to meet unless two of them lived on the same planet. Which at least two planets had that happening.

These scouts couldnt ever know about what they really are. Also they all lived as Princess', some regreted it, but yet as always most loved it. Though as we all know, Michiru and Haruka are lovers. Yet, they're different senshi, so they lived about. Even though married. They're children would never know one another.

Though like every story, destiny will take its place. This is the story of the senshi that will find they're way. Overcoming many obsticals. Challenging the unimaginaire. Racing the wind. Fighting depression. Finding peace. We are the Senshi in the moonlight. With teardrops on the moonlight and emotions in every note.

A/N- I'm sorry it took forever, but I just got my pc moved back in my room. Now that I have the first chappy,Prolouge, up. This story is now started. Updates wont come soon, but they'll come. And I promise they will be good and long. Also I need an insturment for ur oc to play. Violin and French Horn are already taken.
