# 1 - information about the school

## C.O.O.L. (College of Outstanding Learners)

This school is in Japan and is only accessible for a little group of people. Only for people who can learn very well or people who are gifted. With little we mean really little; on the whole school are 101 students, divided over 6 classes. C.O.O.L. is a kind of boarding school; you eat there, you sleep there, you follow classes and that kind of stuff, you only return home for the holidays. Now you shouldn't think that only kids from Japan attend, yes there are kids from Japan, but also other students; from Holland, America, Thailand, Congo, Great Brittan, Italy, Russia, France, Australia, New Zealand, Greece, Germany, Norway en Hungarian. Children from over the whole world attend on this college.

I told before that there were 6 classes; the names are below together with the meaning of the letters and some other information:

- 1Xa (1 time average) = 25 students (Mentor: KRB; Katherine Ribbon)
- 2Xo (2 times okay) = 11 students
- 3Xb (3 times better) = 31 students
- 4Xtg (4 times totally great) = 14 students
- 5Xta (5 times totally awesome) = 12 students
- 6Xttb (6 times totally the best) = 8 students

Compared wit “normal” schools students learn much more here and learn very different subjects. That's necessary; with all those children from various countries you need a lot of different languages. The following subjects are being given:

- PRL (Poetry and Rhyming Lessons)
- ENG (English)
- JAP (Japanese)
- DUT (Dutch)

GER (German)

FRE (French)

RUS (Russian)

OGR (Old Greek)

LAT (Latin)

FFL (Flora and Fauna Lessons)

ATH (Athletics)

AKA (All Kinds of Art)

LAE (Lessons About the Earth)

RHI (the Real History)

ETH (Ethics)

PHI (Philosophy)

HEC (Health Care)

CHE (Chemistry)

MAM (Maths And More)

There's not much you can do to come to this school. That's the job of the "observers": children between the 5 and 13 years are being watched. People look if they are suitable to go to the C.O.O.L. Most children receive an entrance letter by the age of 12, but it is possible that the kids are a bit older or younger; the minimum age is 10 and the maximal age is 13.

Mr. Appius A. T. Priamos is the school principal, he looks in own person in the records of the children and is involved very much with his students, before hi became principal he taught Ethics and before that he himself was a student in this college. If you've got any problems or questions you can contact him and it wouldn't matter in which language you will speak.

The subjects do have to be taught of course and for that we have got teachers:

- Katherine Ribbon (KRB) teaches PRL

Nicole S. McMilden (NSM) teaches ENG

Feng Tzai (FTZ) teaches JAP

Ken van Deijk (KVD) teaches DUT

Roald von Bergen (RVB) teaches GER

Videlle La Parres (VLP) teaches FRE

Medwin von Pateau (MVP) teaches RUS

Athena de Ariadne (ADA) teaches OGR and LAT

Fiora S. Edna (FSE) teaches FFL, LAE and HEC

Evert Vandom (EVA) teaches ATH

Elenor McOwen (EOW) teaches AKA

Adam Windmill (AWI) teaches RHI

Miriam Helldin (MHE) teaches ETH

Aron Choras (ACH) teaches PHI and CHE

Pertes Tage (PTA) teaches MAM

Just like every other school this school has got its own rules. There has to be some order around here. Unfortunately there are way too many rules to write down here...
