## 1 - Break up

the one thing that i couldnt do  
was tell you that i loved you  
i could never find the words to say  
to brighten your gloomy day

you never found time to talk to me  
we drifted apart, it was plain to see  
you never said the words i wanted to hear  
i could see it in your eyes, this growing fear

so i left fed up with all this  
and you sed that i wouldnt be missed  
we both cried a long time that night  
this was the end, this was no minor fight

i never found out why i left you that way  
you never found out why i ruined your day  
we both moved on, but we both lied  
we both sed we were fine, and we both lied

## 2 - Unnamed

Its hard when you realize you dont have the skill  
Rather eyes getting dull, no thrill for the kill  
Losing it all as it slips away  
wondering how you get through each day  
life itself becomes a test  
you wanna let go, drop out like the rest  
knees get weak,and blood runs thin  
shoulders ache and your minds is in ruin  
You dont love anymore you dont even cry  
You beg for a quick death, but dont wanna die  
No turning back now, no time to quit  
no time to rest, sleep or even spit  
you have no love  
no help from above  
no name no face  
no spot you can call your place  
just a whisper in the wind  
and you let go, and let anothers test begin

### 3 - Acceptance

I want to be accepted  
I want them to know my name  
I just wanted them to say hi to me  
Was I the one to blame?

They never noticed  
They never cared  
My smile wore on  
Through trials and through tears

I said my goodbyes  
That fell of deaf ears  
My glock 33 in one hand  
My hate in the other

In the end you will see  
this is the irony of humanity  
Those in the spotlight need to get out  
And those dimmed from the light kill to find out

## 4 - Peers

A pair of eyes  
peer into his soul  
his untucked shirt  
a missing button hole

hair out of style  
a rip in his pants  
the fact that hes goofy  
or that he cant dance

Or maybe the fact that he has hundreds of inside jokes  
hes never had a drink or even a smoke  
he has no girl, never had sex  
dont work out too much, definatly dont flex

his parents arent perfect, neither is he  
he writes lots of stories and poetry  
playing video games a bit too much  
he fights and argues and can never be clutch

cant be wrong  
wont let it go  
walks in the rain  
in love with the snow

likes being cold but uncomforatble in silence  
telling jokes only he thinks is a riot  
branded by most, accepted by some  
he thinks that hes cool, but they think hes dumb

## 5 - The past

Memories flood back to me  
to the first day we met  
when we were just juveniles  
with no worries or cares  
but that was before the violence  
after the laughter  
we cant go back  
our destiny awaits  
ive crossed the door  
will you joine me?  
or stay back in the old days  
trapped in a world void of reality?

## 6 - Memories

these memories that run so deep  
the ones id hoped to always keep  
they scar my mind and drain my soul  
of icy hearts and revenge black as coal  
they taunt me when im deep in sleep  
there memories i wanted to keep  
however now they hurt so bad  
the days of my youth that i had  
at the time seemed so meaningless  
but now ive faded away into nothingness  
to be a kid is how to fly  
now my peers wishing they could die  
someone struggles and its all but funny  
everyone too busy looking for money  
and still i sleep reminded of the past  
remembering how i wished those days would just pass

## 7 - Repent

My memories stained by blood  
Heart in shreds  
The pain still lingering  
screaming still in my ears  
Seeing there faces as they slowly faded away  
Will haunt me when I blink,  
But I wont die  
I cant face them till i repent  
and even then it may be too late
