Chapter 1 - Stupid Test

2

1 - Stupid Test

18 or lower means you're not stupid.

Gum has fallen out of your mouth when you were talking.

Gum has fallen out of your mouth when you were NOT talking.

You have ran into a glass/screen door.

You have jumped out/off of a moving vehicle.

You have thought of something funny and laughed out loud, then people gave you weird looks.

You have ran into a tree.

It is possible to lick your elbow

You just tried to lick your elbow. (I feel retarded)

You never knew that the Alphabet and Twinkle Twinkle Little Star have the same rhythm.

You just tried to sing them.

You have tripped on your shoelace and fallen.

You have choked on your own spit.

You have seen the the Matrix and still don't get it.

You didn't notice that in the last question "the" was spelled twice

You just looked at it

Your hair is blonde/dirty blonde.

People have called you slow.

You have accidentally caught something on fire

You tried to drink out of a straw, but it went into your nose/eyes.(That was the monkey's fault!)

You have caught yourself drooling.

You've fallen asleep in class.

If someone says "fart" you laugh.

sometimes you just stop thinking.

You are telling a story and forget what you were talking about

People shake their heads and walk away from you.

You are often told to use your "inside voice"

You use your fingers to do simple math.

You have eaten a bug. (I was only 2!)

You are taking this test when you should be doing something important

You have put your clothes on backwards or inside out, and didn't realize it.

You've looked all over for something and realized it was in your hand, hair or pocket.

You sometimes post bulletins because you are scared that what they say will happen to you if you don't even when you know it won't happen to you.

You break a lot of things.

Your friends know not to use big words around you.

You sometimes tilt your head when you're confused

You have fallen out of your chair before

When you're laying in bed, you try to find pictures in the texture of the ceiling.

The word "umm" is used many times a day.

Total: I think 35 (I guess I'm not as smart as I thought...)
