1 - English - 3 Some Trouble

3 some trouble

Chorus:

*Let me go, let me go,oh
You always take control
Did you ever hear me screaming for help,
starting with hello, hi,
Someday it I'll let you show, I*

*It's a 3-some trouble
My life is almost like a bubble
One moment I'm flowing trough it all
But then I spatter out
And have to the mess up, speaking lies with my mouth*

*No idea's how to start
No plans of how to end
Can't I rip my personality's apart ?
Would be easier,
Going along like sisters, speak it all over the place
Then we can finally, embrace*

Chorus:

*Let me go, let me go,oh
You always take control
That's the reason why I got a tittle, a role
It's all a play, and we all try to act the same outside
But inside we all
Collide*

*Tied to eachother as glue
The body is just a shell
My act with a costume
And no one who notices untill
We spatter out
Everyone asking 'what's the matter?'*

*But how should I start
Cause,*

*She doesn't let me go, let me go
There are 3 options, who takes control ?*

*We all have seperate arguement
To smile till life ends
To attack and defend
The puzzle pieces
The pain will always, increase*

2 - English - All Sorry

All sorry

*I'm so sorry
Just leaving with your Ferrari
With open windows
Where tears flow
Heading to your closed door
Knocking, 'will you can ever forgive me?'
Can you ever trust that key
To me once more*

*Now I'm thinking 'bout this, lying on the cold floor
I found out ...*

*Chorus:
I made the greatest mistake
Relied on what everyone said was wrong
They told me you had a bad influence
But it's together that we belong
Because...
You we're my inspiration
Sometimes my frustration
But still, we had the best relation*

*I apologize
For what I have done and didn't do
What's the result of leaving ?
I didn't get better, only lonely and blue
When I put this song on the internet
Will you E-mail me back
When they send it out on radio
Please listen carefully, then
Because...*

*Chorus:
I made the greatest mistake
Relied on what everyone said was wrong
They told me you had a bad influence
But it's together that we belong
Listen to my song
I just was wrong
Repeating every word for so long*

*Now today, still excusing for all I've done
Wishing this had never begun
Abruptly got a idea
Ran to his car and vastly disappeared
Into the ocean close to me
The ocean, my tears, the sea
It ended there only after
you noticed me on the news
and saw my note*

*Chorus:
I made the greatest mistake
Relied on what everyone said was wrong
They told me you had a bad influence
It's together that we belong
But now, this my goodbye song,
To you...*

3 - English - Breathe, please Stay

Breathe, please stay

*Giving up everything
Let it all behind
Away from home to sing
To tell this kind*

*The first time I saw you on there
I can't deny
No I couldn't look away, I just had to stare
On your stage playing those games
Trying to be a hero with some names*

*Chorus:
The rules will be broken
Stay and have fun
Let the thunder and clouds free for once
Can't be without you
You are the only one*

*First you had no name
An unknown destiny
I tried to help you out
But somehow it was mean from me
Cause there we're some names I had to shout*

*Even tough you come from years ago
Only here to save us all
Why can't you stay slow
I say the rest place can wait*

*Chorus:
The rules will be broken
Stay and have fun
Let the thunder and clouds free for once
Can't be without you
You are the only one*

*Just feel the thunder from your heart
Because when you go, your not that smart
the clouds inside me will break apart
to rain, I have waited so long in pain*

*Only for you
Hopefully, you knew.*

4 - English - Fate and time theme

Fate and time theme

The Egyptian bell's will be ringing someday.
This time coming without rain, all the way.
Now it's back to the resting place where I belong.
Now where we will be singing our last song.
It was fate to hate each other,
It got turned around by the confessing love of my cover.
The pyramids will feel our trembling hearts.
The ancients past will not change us.
The clouds and thunder between us won't turn into dust.
Someday we'll just see again.
Tree thousand years will pass before we get another chance.
Everything on it's own time.
But as long that we are waiting,
We'll try to cherish all the memories.
"It's a promise that will give us a proof that we are something good."

5 - Dutch - Gebroken beschoten

Gebroken beschoten

*Eer
Gister
Weer
Miste
Ik mijn kans
De laatste
Die ik niet meer kon verplaatsen*

*Het begon met een simpele groet
Tot hij vroeg
"Wie ben jij?" dat moment, verzakte mijn moed
Na een uitleg
Was het afgelopen
Geen antwoord werd verschoven
Het was simpel "Geen interesse." punt
De enige woorden die toen in mij opkwamen was
Klootzak
Idioot
Rund*

*Refrein:
Veranderd, uiterlijk
Normaal, gedrag
Meer voordelen gaf het wel
Zat nog steeds niet goed in mijn vel
Want mijn doel zag me nog niet staan
Gebroken trek ik nu weer zwart aan
Beschoten voelde ik mezelf bestaan
Misschien kon ik beter weg gaan
Ver weg bij hem, vandaan*

*Diezelfde dag opschool voor het gesprek
Was mijn traanbuis al bijna lek
Zijn vrienden en hij wisten het al lang
Het is puur
Hij, ik, wij is iets was niet kan
Zijn vrienden riepen "Ewww"
Niks deed ik terug
Geen snik
Niet geschreeuwd*

*Ik bleef bij mijn vriendinnen,
er om lachen
want zij kunnen toch niet verzinnen,
dat janken is, waar ik naar smachtte*

Refrein:

*Veranderd, uiterlijk
Normaal, gedrag
Meer voordelen gaf het wel
Zat nog steeds niet goed in mijn vel
Want mijn doel zag me nog niet staan
Gebroken trek ik nu weer zwart aan
Beschoten voelde ik mezelf bestaan
Misschien kon ik beter weg gaan
Ver weg bij hem, vandaan*

*Nog steeds voel ik de kogel zitten
Naast de oude wonden,
Die nog steeds niet pitten
Waarschijnlijk was dit de laatste druppel
Heb nog maar één slag nodig met een knuppel
Want van een jongen krijg ik toch geen knuffel
Om het te helen
Om de pijn te delen
Want hun kan het niks schelen
Maar dat zal ik nooit hardop
Uitschreeuwen*

Refrein:

*Veranderd qua uiterlijk
Diep, van binnen
Nog steeds dezelfde
Hij wees me af
voor iemand die ik niet ben
Voor misschien wel iemand die ik niet ken
Ik sta in het leven,
Gebroken tegen niemand aan
Beschoten zal ik bestaan
Misschien, soms, vaak wil ik hier door gaan
Ver weg bij hem, vandaan*

6 - English - Generation chance

Generation chance

I just wish I had a destiny with you
In ancient Egypt, when the pyramids we're still new.
You, the pharaoh and me as your queen
A beautiful destiny
That's what I mean

Why is it impossible, why was I your enemy
Somehow I screwed up,
Somehow it's meant to be shut
You we're from France blood
When I was from England
A war that was magnificent
Enemies forever and longer
Or will my love today be stronger ?

Chorus:
Enemies forever and longer
Or will my love today be stronger ?
I want to know cause
My heart can not deny
Those shadow games you play to me inside
I feel so sorry for what I've done
Teasing, hurting and now all these lies.
The generation list that makes me want to die.

Someway I can't leave you in the past.
I want to change it, it cannot last
Someday I'll turn around fate
It's promised so
it will be made, the promise will not fade

Yes I know I'm not so special as you with you're 3 high generations
Pharaoh, king and saving the world.
Without you my heart wouldn't be hurt of this feeling invasions
My boring brown hair and eyes can't compete with the purple eyes of yours
One of the endless reasons I love you of course

Chorus:
Enemies forever and longer
Or will my love today be stronger ?

I want to know cause
My heart can not deny
Those shadow games you play to me inside
I feel so sorry for what I've done
Teasing, hurting and now all these lies.
The generation list that makes me want to die.

With the thunder fading from your eyes
The clouds making me look nice
The day I'm finished from it all
The weather without you, will make me fall.

7 - English - He was Chinese

He was Chinese

*It's not so much
Just a small crush
He is tiny too
Just like me, thank you*

*still the complete opposite
he was gangster
And I was whoever I was
With the worst reputation of school
How I am supposed to be with someone, so cool ?*

*Chorus:
First time
A calf-love
He called me childish
But I was still in the clouds above*

*I called him gay
But his friends already did yesterday
How original was I, for that to say ?*

*Did I already tell you
he is Chinese
And I dutch
He had all kind of asian friends
Asian talk groups
A asian name
And even porn contends
What the hell ?!*

*Chorus:
First time
A calf-love
He called me childish
But I was still in the clouds above*

*I gave him a card on valentines day
But he couldn't read it, what a shame
A few weeks after
A letter he never noticed*

*I even changed my clothes and make-up
But still
To my heart your like, a suicide-pill*

*Why do you ignore me
Am I not good enough to see ?
Or are you just like the others
Always playin' around, free*

*Chorus:
First time
A calf-love
He ignores me all the time
Say's he doesn't know me
As if nothing happend
You just don't like what you see
Why don't you just say it
Cause then I can stop hopin,
Throw a robe in the ring
Love ain't my thing...*

Lyric / Songtekst - He Was Chinese © Meru's Playground

8 - Dutch - Herken vlucht naar liefde

*Hoe erg kan je iemand missen
Als hij niet eens bestaat
En hoe erg kan je van hem houden
Als hij je wereld verlaat
Weg van realiteit zonder enige spijt
Verdwenen uit de tekeningen, televisie, computer en andere spullen
Alles wat me nog steeds aan jou doet denken
Niks zien in al die andere knullen*

*Erover beginnen
En mensen gaan meteen over in negeren
Ben ik de aanstelster of zij?*

*Ik realiseerde dat er nooit een wij was
Dat er nooit een zal wezen
Omdat je simpel weg niet bestaat zal ik vrezen
Die wond zal in mijn hart niet meer genezen*

*Erover beginnen
En mensen gaan meteen over in negeren
Ben ik de aanstelster of zij?*

*Dacht dat alle spullen waren weggevaagd
Maar aan mijn gedacht is waar het nog steeds knaagt
Wie niet wint heeft nog nooit gewaagd
Dus zoeken naar jou zal ik proberen
Toch zal ik nee tegen mezelf zeggen om het te forceren
Want realiteit is iets wat te hard aankomt
Iets wat ik zo vaak expres niet verstond
En hij? Hij werd mijn toevlucht
"Nu is het helaas liefde." Bevestigde ik met een zucht
Dat terwijl ik nu net weet
"Liefde is blind, maar wel echt." Een o zo bekende kreet*
