alright, next are the boxes that contain the tab links. simply replace the boring "tab 1/2/3" headers with the actual headers! the numbers correspond with the numbers above, so you know which box you're on.

okay. so. what i'll do is i'll give you the hex codes for the colors and tell you where they are. then, when you have new colors to plug in, you can pick what the replacement hex is, scroll through, and paste it in place of every of the previous colors.

#FC9D9A: background of all the boxes

#83AF9B: borders and text

#FE4365: headers and links

#C8C8A9: bold and italic text

#F9CDAD: hovered over links

make sure you always have the same color combinations. remember that you'll need five colors to do that. kapeesh? kapeesh.

ALSO. one last thing. in the "links" box, make sure you switch my id with the owner's id in all the links EXCEPT for the credit box.

if you have any questions, message me!
