Name: Nightmare Ayala In Vargas The Second *prefers night*

age: At this point he is 19.

Gender: Male

Status: Cappy

Bio: My main character, Night, is one with a harsh past.

In the beginning, he was your average hedgehog, kinda with a nice family, but he was born on a battlefield, and was trained by his dad, Nightmare, about basic survival skills. When his sister was born, he was happy, but his father was also treacherous, for he had killed their mother after Niata's birth, and Night was heartbroken, but nonetheless, with a baby sister and a hard life ahead, he used the best of his survival skills. When he turned 7-8 years of age, he found himself in the middle of a Draft for army, and so he was separated from his sister, where he found himself inducted into the trials for an elite army of kid soldiers, for which he did exemplary, earning himself the right to fight. When he turned 14, he found himself in a mission that would change his life. He was going to meet his sister again, and find his father too. He did find his sister...but however...She betrayed him halfway through the mission. and so it was that he was put into jail, and tortured, to which he lost an eye, and his elbow, and lost control of his legs at points. but in the end, he had found his father. and fought him for the revenge he sought. He had won. and then however, his sister came and tried to fight him, after beating him before many times. but he had won against her too. But this led to a life of living in Alaska, and other ice areas for two years. in solitude where he would live a life of sorrow. But then one day, he was called into a town...just some town..but he found true love at age 16. which would lead him to his love today, Cappy, and he would live with her now, Not only happy, but as a Mercenary for hire.

2 - Night I

Name: Nightmare Ayala Invargas The First.

age: 37. *deceased*

Gender: Male

Status: Sakura Invargas.(Deceased)

Bio: Nightmare is basically your powerhungry freak.

As a child. Nightmare looked up to his own father, as an idol. Too bad his father was a dictator. However, Nightmare led a good life. no violence...just training for any day that would come...nobody truly knows of his life until he was 18 or so...and he found a brothel, where he met Sakura invargas(..sounds bad..but youll see in her profile that shes no prostitute). However, he Did pay for services, but it came to be that these two would fall in love, and so it was that They had given birth to Young night, whom Nightmare despised for his Unique personality and IQ. Then When Night was 4. He killed sakura in a fit of rage. and To be inducted into the Lead position of an army, which he would control and have troops around the world, looking for his son. It wasnt till later that Nightmare realized that Niata was also born, but he took control of her...he Used her for his own advantage and created a pact of trust, which wasnt true to him, to make Nights sister a killing machine, but nightmare wasnt ready for the skills that Night presented, and lost a battle, and his life. He is buried in a grave in front of the now deserted base he USED to run.....and is honored for being perhaps the Greatest leader of any army there was today. Night, despite killing him, still respects his Invargas blood.

Name: Sakura(*Akade) Invargas.

age: 40.(deceased)

Gender: Female

Status:Nightmare ayala invargas the First

Sakura was Originally named Akade Anasa. But She preferred a name her best friend called her, sakura! So She was Sakura Anasa. But As a child, she was actually a VERY normal girl, but she had a knack for taking advantage of boys, and men alike, and she was possibly the smartest girl in her classes, making her valedictorian of her high school. This impressed the Special Area and Tactical Experienced Forces. The SATEF. Whom came to sakura when she was 18. And ready for college, Sakura was actually only going to do this for the Money it had paid, and she was also in GREAT shape due to her bad experience when she was a junior when someone tried to seduce her. She was put under extensive training, and passed all her classes with flying colors. She was the Only agent who could complete every course, and so at age 19. She was put into a brothel coverup, to Arrest any and all people who were involved with illegal drug rings, and she had gotten guy after guy VERY easily, except then..she met..a strange man..one whom seemed to resist sakuras charm, and she immediately fell in love, but this would be her biggest downfall...she got married. And lived with Nightmare in a battlefield area, taking care of her beautiful child, Night, and resting her Second baby, Niata, whom she kept a secret from Nightmare, knowing he Would soon do something That she was fully ready for..and so when Nightmare was about to shoot Night and kill him...She Took the shot, and protected night as he held her in his small arms....and She gave him Nightmares dogtags and a teardrop shaped necklace. he wears both always. And She now is buried with Nights very first knife planted as a gravestone, and her favorite flowers surrounding the grave, courtesy of Night.

Niata was born in Nights arms, on the shores of an old warzone. She looked to him not only as a brother, but a Father, he would always care for her and protect her, and learned from Nights survival skills and fighting styles over the three years she was with him..until she was taken into a rebel army..also the one her Own True father was commanding. So it was that Niata was Trained for 15 long years....Learning even more than night..and as a Very well trained soldier, she was the commander in chief, Nightmare, (not knowing it was his own daughter) Admired Niata, and loved her skills. She then one day, was confronted by him, and She told him her last name, Invargas. It was then that Nightmare found a family member he could appreciate. He created her in his own image..and now it was time to test her. He Made her go and try assassination attempts on Night..but she could never finish the job..she could only take out night...but not truly Kill him....she loved him too much...So she instead needed more fuel to her fire...which her father gave to her easily. He then sent her to the other army as an undercover agent, where she met Night, and They were finally together...but she knew she had to do her job...so she knocked him out and gave him over to her father...and felt so bad...that she waited and even had transportation for night, ready and good. but she still wanted Night to kill her for all the evil things she had done to him. And so he did...having no choice..and He took her in his arms, carrying her through the dense forest...and burning her...and putting her ashes to sea.....the place she was born..
