1 - The Birth of a Devil

The moon was bright and silver. It was the night of the vampires. They followed a female who was to give birth to a child. They gave her buckets and buckets of blood for her to feed the child and herself with. With a scream of pain, the child was born. It was a female. They were prepared for a male. But at once another was born. This was a male. There was only one female in the group; she was the leader's wife. But that all changed. The female was to hide the baby girl from the father until he is ready for the girl. If he found out for himself, he would have killed the girl. They named the two children. The boy's name was Shinto. The girl was named Roxanne. They hid the girl until she was five. The father would be older by then. The girl was not aware of the vampire inside her. She didn't even know her parents were vampires. Not even her brother.
