Life Journey

The Breath of Life is beautiful

In a lover s kiss so sweet

In rapture so exuberant

When two souls first did meet

A feeling so infectious

Only jealousy can hide

A moment wrapped in splendor

Had soon and quickly died

And then serenity beheld

A second in this life

When two spirits had the power

To become man and wife

They galloped to the sunset As gracefully they ride

A man so strong and humble

And his beautiful, becoming bride

Now gray, they sit and rock together

Watching years pass by

They saw their children live and love

And together they will die.
